

NYS SHOED OFF HAUDENOSAUNEE LAND BY AKWESASNE MOHAWKS

MNN. Jan. 28, 2009. The repossession of Haudenosaunee land is an on-going process. In the 1920s we repossessed "Tiokwaroton", a six mile square area in the Laurentian Mountains north of Montreal. In 1957 we settled in the Mohawk Valley near Fonda New York where "Kahnawake" had existed long ago. We left when NYS started objecting to our presence because we knew our land issue did not belong in the colonial court system.

In 1974 the Mohawks of Kahnawake near Montreal were being squeezed on our land by the influx of many non-Ongwehonwe. They were coming in to illegally live in cheap housing which some of our people were renting to them. The people became alarmed at the high numbers that were arriving. They were beginning to crowd us out and trying to control us.

The traditional Longhouse people were asked to help evict these people. Eviction notices were handed out to the illegal tenants. The colonial "band council" supported by the Canadian government and the illegal tenants objected to the move. Canada and the band council sent in Quebec Police to instigate violence and divisions. Resistance ensued. The non-Ongwehonwe left. They knew they did not belong here.

Canada respected the Longhouse people who knew that Kahnawake is on Iroquois Confederacy territory under Kaianerehkowa, the constitution of the Iroquois Confederacy. It was never surrendered and never a "reserve". After the evictions the Minister of Indian Affairs Jean Chretien secretly proclaimed Kahnawake as a "reserve" without consultation, referendum or consent of the people. This violated international law. No state is allowed to absorb another without the free and informed consent of its people. The band council went along with it. In 1979 the people overwhelmingly voted to live according to the traditional form of governance.

The traditional people decided not to fight our own people. Some moved to another part of our Territory at Moss Lake in upper New York State. On May 13 1974 they resettled in a community called "Ganiengeh". It was a Warrior's Project which was sanctioned by all of the Confederacy.

Shortly thereafter the Grand Council of the Rotino'shonni:onwe, Iroquois Confederacy, set up the "Land Rights Committee". They passed a resolution for our people to find ways to get our lands back by "all means". According to the Kaianerehkowa, the Great Law of Peace, everybody and every nation has a duty to protect our lands. The Confederacy wanted strong advocates in the movement. Some of the appointees to the committee were writer, artist and historian, Louis Karonhiaktajeh Hall, Mad Bear Anderson, Beeman Logan and others. The movement gained support from other nations across Turtle Island and international support from Germany, Australia, England, France, Netherlands, African nations and the World Council of Churches.

One of our communities, Akwesasne, was usurped, piece-by-piece, until only a tiny portion remained as lands "reserved" for the Mohawks.

In 1763 the King of England issued a "Royal Proclamation" to forbid English colonies and British subjects from taking over any "Indian Lands" without a treaty with the

King. The Confederacy knew this Proclamation was only for the colonists and their monarch. We could make agreements with anybody we wanted. They could not. These proclamations and agreements between the European entities were used to steal and disperse Ongwehonwe wealth. The Revolutionary War created the "imaginary line" known as the U.S./Canada border that split Akwesasne. The northern portion was supposedly protected by the King. The southern portion was supposedly protected by the U. S. Constitution. The Jay Treaty of 1794 was a trade agreement between the colonies. We were not part of it.

The Europeans asked the Kanionkehaka of Akwesasne to let them use some of our lands for temporary settlement. At the time, Akwesasne extended eastward to Lake Champlain in Vermont, and toward Watertown to the west. It ran from the St. Lawrence River well into the Adirondack Mountains to the south. In the center of Akwesasne is a one mile square piece which was leased by New York State. It contains the town of Hogansburg. This is where the Raquette River and the St. Regis River flow into the St. Lawrence River. Today the principal east-west highway 37 runs through the middle, intersecting with the principal road to St. Regis Village. In 1817 Michael Hogan, a wealthy former Irish ship captain, a member of the NYS Assembly, later a judge and Member of Congress in 1830, leased our land and water at Hogansburg. NYS named the town after him. It wasn't made with the people of Akwesasne, the Mohawk Nation or the Confederacy. The two "indentures of lease" of October 20 and 23 were sanctioned and confirmed by the NYS Legislature, who had no authority to do this. Hogan was to pay an annual rent of \$305 to the Mohawk. It could be renewed upon the same terms.

In 1824 NYS stated that the Mohawks had sold Hogansburg to them for \$1, with an annual payment of \$305 "in perpetuity". William Hogan then magically acquired the deed from NYS. When the lease was finished, the Mohawks refused to renew it. Instead of returning the land to the owners, New York State started to illegally sell it off to non-Ongwehonwe. A few buyers tried to cash in by reselling it to outside developers for millions of dollars.

The Mohawk people decided to repossess our land. This was done. No one opposed this. It is now being resettled by the Mohawk People, who are determined to ensure their children, grandchildren and future generations have sufficient land to raise their families.

Illegal leases issued by colonial governments is an ongoing problem that requires constant vigilance. The land was validly repossessed because there was no agreement allowing the state to squat on our land. The lands belong to the nation, not to individuals. The situation here is the same on all parts of Turtle Island. That's why the settler society refuses to study documented history.

Wimpy Montreal cops seek god-like status – anti-insult laws to protect their tender egos

MNN. Jan. 29, 2009. Montreal police want the city to give the cops the right to crack down on "insult-hurling" citizens "with a blow to their pocketbooks" or cooling our heels in a jail cell. They don't want to be called "pigs" and "doughnut-eaters" anymore! They want us to salute them and lick their boots. We're worried that some insulters could get jail time in the "Swearor's Prison" in Old Montreal. British Police are already enforcing this law even though it's not on the books. Photos of police harassing the public is going to be a crime there.

Mayor Tremblay and Chief-Insp. Paul Chablo of the Montreal Police force are seriously thinking about it. It's probably a go since you can't fight city hall. They haven't mentioned what hapless people can do about the insults and disrespect we have to endure at the hands of their bureaucrats and agents. What about the names, assaults, tasing, obstruction and "accidental" killings we have to suffer in the name of law and order? They want to be able to commit all the atrocities with impunity and no complaint department.

We wonder whether they are going to be allowed to shoot us like that kid in the park? Wasn't he playing chess? What's this about? Are the police fishing for bigger payoffs to buy our peace? The city is always trying to find ways to make some quick cash.

Thank goodness they can't punish us yet for giving them dirty looks, sticking out our tongue and our risky thoughts about them! With all the new surveillance technology, is that coming next?

Their excuse is they want to keep police interventions involving violent citizens from getting out of hand. We've seen them gleefully go after people, beat them to get a reaction and then arrest and brutalize them.

The Great Law of our people says the "Royaner" must have a thick skin to deal with issues. It is well known that people who are frustrated often express their feelings in words and are less likely to resort to weapons. There's a good reason for the advice from elders that, "sticks and stones can break my bones but names will never hurt me". It would make a lot more sense to train police to be desensitized to name calling and behave and respond in an upright manner. Why don't they set up a soap box so we can call them names and tell them why we do it? This would be therapeutic for both sides. Or are these laws meant to condition us to get used to being controlled and enslaved?

In what language can the cops be insulted before it is a crime? Most of the cops in Montreal are French speaking. It is a good reason for learning Mohawk where we have colorful and accurate descriptions of the colonizers that are explanatory, not expletive.

The cops don't need another discretionary weapon. They already engage in provocative and abusive behavior like stopping people for no reason, pushing them around and threatening them with fines and penalties.

It all depends on one's budget. Are they going to put out a list of swear words and the amounts of the fines attached? Calling them pigs could be a small fine. But calling them "f---ing pieces of foreign dog s---t" could be more! If we call them "f--king cop", this might mean he knows how to make his girlfriend happy. But if we call him a "mother f--king cop", then, if there's supporting evidence, whose going to lay the charge?

Under the common law there is a principle "nule crimmen sin legge". Nothing is a crime unless there is a law against it.

It's questionable policy. Ronald Sklar, a McGill University law professor, said "There are ... a lot of words that are border line. Insults are highly subjective." The police shouldn't be any different than anybody else as far as insults go because it doesn't affect their ability to do their duty. If the cops shoot and kill one of our sons, will we be charged for screaming in agony and insulting them as an expression of fear and

anger? Sklar said words can be punishable, but they must threaten bodily harm or incite disorder.

Montreal also wants to pass a motion to prohibit protesters from covering their faces during demonstrations [of what?] Is this law a way to get rid of peaceful demonstrators? Claude Dauphin of the Montreal executive, said there would be exceptions to the rule. "Demonstrators would have the right to don headgear" that look like a certain politician who is the target of a rally, or wear a ski mask when the temperature goes below -25 C, but not above. What about people wearing a mask to protect themselves or others from Asian flu?

Chablo said, "Whenever there's a protest where people cover their faces with masks or any type of cloth, usually it results in violence or there's an intention to commit violence." How can they prove an intention? Are these laws to protect the cops' dainty egos? Couldn't they also be evidence of violent intentions? Many of us are targeted by the cops. Is a natural mask like a dark face more easily punishable? Is this a back door way to justify the racism that people "of color" already suffer at the hands of the cops?

We have a right to cover our face if we don't want to be seen or don't feel secure enough to be seen. Some of us could have scars or marks we want to hide. The fact that people have to resort to public demonstrations is proof that citizens are given no real respect or voice in the colonial society. Two MNN staffers were targeted and subjected to attempted murder by Canadian agents last June 14th 2008 at the Cornwall border crossing. Canadian officials refuse to investigate this crime, let alone accept responsibility. For those who have never been targeted, fear comes to those of us who know that we may be beaten up or targeted for murder if we express our opinions.

The way the law looks, we can't wear makeup, sun glasses, mustaches, beards or hats, dye our hair or lose or gain weight for fear of being charged with illegally changing our appearance! The police can drag us into court and cause us all kinds of expense, fines and conditions. When police beat up people in public, we cannot film them. They say they feel intimidated. Police are equipped with video cameras mounted on vans to tape everyone at a protest. But when the videos provide evidence of police misdeeds, the footage suddenly disappears. This law suggests we are going to be forced to salute the cops or else. It looks like they're stepping up to something more vicious! Aw! shit! Oh, oh! That's a \$10 sear word!

NYS GOVERNOR AND COURTS RETREAT – NO AUTHORITY TO INTERFERE WITH SENECA TRADE

MNN. Jan. 28, 2009. The colony of New York can only tax its subjects. The Seneca Nation and other Ongwehonwe are not part of this colony. The courts agree that the governor's decree is illegal and non-enforceable. The Senecas say any attempt to interfere with our trade is an affront to our sovereignty.

On January 25, 2009, the Seneca, our brothers, sisters, friends, allies and supporters gathered at Cattaraugus to affirm that NYS must obey valid laws and agreements. At this time NYS Governor David A. Paterson began back pedaling because of the resistance and in anticipation of this New York State court ruling made on January 27th 2009.

The court confirmed that NYS has no right to interfere in Ongwehonwe sovereignty. Their face saving excuse is that NYS "hasn't created a system to exempt Indians from taxation"!!! In other words, they remembered a bit of history. Or maybe they haven't finished making the harnesses they were trying to put around our necks to make us rescue their failed economy. We stopped them from putting fake taxation remedies on us.

Just before the event Paterson sent a fax to the Seneca pledging his commitment to a "mutually productive relationship" with the "leadership". He was referring to Barry Snyder of the tribal council which was set up as a colonial entity. This is not his call to make. We have a right under international law to chose our representative to negotiate with full knowledge and consent with foreign states like New York, the U.S. and Canada.

A deal between Paterson and Snyder to determine our fate is unacceptable. We must speak and our words must be heard. NYS has a history of making shady deals with co-opted "leaders". The people will not let Paterson canoodle in isolation with so called leadership to make a tax pact that isn't supported by the people.

We will not be threatened by colonial politicians in Albany who try to interfere with our trade and commerce and illegally force colonial jurisdiction on us. We will continue to make plans to collect tolls on the cars passing on the Interstate Thruway #90 that runs across our land. NYS did not honor the 1954 agreement to pay us \$1 for every car that passes on the Thruway over our territory. We have every right to assert authority over our land. We have every right to travel freely on our territory. We have never relinquished any of this.

NYS is violating the Two Row Wampum Agreement, the Canadaigua Treaty 1794 and the U.S. Constitution. The Two Row created the U.S. colony. The Canadaigua Treaty states that, "the U.S. acknowledges that our property is our land and that the U.S. will never claim the same, nor disturb us in the use of our land". It sets out the separate relationship between our nations. Article 7 states that only the U.S. President can select his designate to petition our leadership on nation to nation conflicts. The U.S. Constitution, Article 2, Section 2, also designates that only the President or his designate can speak with us on national matters, which is what trade and navigation is.

NYS illegally occupies our land. NYS cannot mount blockades on the delivery of trade goods to us. It is purporting it will come up with a scheme to trick, fool us and use force to make us comply with their pronouncement. They know the Seneca people must agree to everything. Otherwise we will resist as we always have. International law supports the protection of our birthright.

NYS constantly uses fraudulent means to make claims to our rights and possessions. It has never respected its agreement to not harass us, the owners of the land. It looks like NYS backed down when they got resistance. Their court system is set up to maintain their for-profit colonial corporation. But it did support us this time. However, it was the courts dedication to legal principles that forced it to recognize some of our rights.

This sounds more like a script for a B-Rate Hollywood movie. NYS is forming another impotent showpiece, the "Office of Indian Affairs". We hope it is meant to educate themselves on the true history of the Ongwehonwe and their obligations to us.

Snyder is only familiar with NYS and Federal Indian Law which have nothing to do with our national sovereignty. We know any agreement will be used as a precedent to apply their one-sided edicts to other Ongwehonwe. Snyder is not authorized to negotiate on behalf of the "Keepers of the Western Door". Only the people can do that through long established protocols. We will continue to live by the Kaianerehkowa, the Great Law of Peace.

12207 318-463-3200 Andrew R. Bush, Director, arush@sysba.org;

Call Out by Seneca, Keepers of the Western Door: Sunday, January 25th 2009, Noon. All welcome to hear and learn the issues. Cattaraugus [Route 438 and NYS Thruway or Interstate I-90]

MNN. Jan. 23, 2009. The Seneca People are inviting all our brothers, sisters, friends, allies and supporters to join us in Cattaraugus. The gathering will feature food, music, speakers and a bonfire. Heated shelter will be available. Bring blankets, cameras, phone cards, warm clothes, shoes, folding chairs, walkie-talkies and so on. Also signs, banners and flags indicating support for Ongwehonwe sovereignty.

The gathering will be a show of unity and solidarity to defend our inherent power to conduct trade free from intervention by colonial New York State.

New York State Governor David A. Paterson signed on December 15, 2008 an illegal document designed to destroy the economies of eleven Ongwehonwe communities by imposing illegal taxes and cutting off supplies to our traders. The scheme is scheduled to come into effect on February 13, 2009.

Paterson's action has caused State Supreme Court Justice Rose Sconiers to issue a temporary restraining order stopping the enforcement of this highly questionable pretense at a "law". A hearing is set for January 27th 2009 to decide whether a permanent injunction should be issued against NYS to stop it from implementing this questionable measure.

NYS has refused to pay for its use of our land under the 1954 agreement for the Interstate 90 easement that cuts through our Territory. Because of this the agreement is no longer in effect. NYS is trespassing. To assert our authority over our territory we are working on a system of tolls on the Thruway through Irving. The Seneca tribal courts are working on declaring the thruway as an invasion of sovereign Seneca territory.

The Seneca People are always ready to work cooperatively with New York State. We don't understand why NYS has chosen to abuse us. Previous conflicts between us and NYS have always ended in the Governors reversing their illegal positions and acknowledging our sovereignty. Most NYS legislators are ready to violate our sovereignty while independent polls indicate that 70% of the people of NYS support legality, fair play and decent treatment of everyone, including us.

The Seneca are petitioning U.S. President Obama to respect the Canadaigua Treaty of 1794 and to protect us from crimes that NYS is attempting to commit. Please help us support Seneca sovereignty and the rule of law.

Contact Seneca Nation at 716-532-4900 and comments can be posted on www.letstalknativepride.blogspot.com

BEWARE “RAHNATAKIAS” – CURE FOR OBAMA FEVER IS “INDIAN” HISTORY

MNN. Jan. 21, 2009. U.S. President Barack Obama slipped a subtle comment into his inauguration “mind control” speech on January 20th. When Obama defined America as a nation of “Christians and Muslims, Jews and Hindus and non-believers”, he deliberately left out Indigenous peoples. We have our value systems. We have our knowledge. He sneaked in the intention to ignore us when he said that “the lines of tribe shall soon dissolve”. To Americans the word “tribe” means the Ongwehonwe. We are the caretakers and trustees of the lands and resources of the world which the New World Order NWO or One World “Government” must steal to control the world. Our role puts us squarely in the path of this grand scheme of a few bankers, the governments they control and their deadly enforcement agencies. Colonial “band or tribal councils” will be put in charge of indigenous people where possible such as Iraq and Afghanistan. Other Indigenous peoples will be “eliminated” or ignored. It looks like this program will be run by the United Nations “International Department of Indian Affairs” on behalf of the NWO war mongers. Obama’s main message is, “If you don’t do it the American way, we will crush you”. It is all the more “devious” because it’s coming in this velvet glove that claims that it’s being done in a spirit of cooperation. The real message is, “we will defeat you”. A new disease is being spread called “Obama fever”. The symptoms are flag waving, millions gathering and clapping like a bunch of trained seals and hypnotic sectarian rapping.

O-Ba-Ma, O-Ba-Ma! The following are comments by “Native Pride” and MNN Mohawk Nation News:

Tuesday, January 20, 2009: Obama: The New Lincoln? We Hope Not!

As the US crowns its new king, the world looks on with [media guided] hope and wonder. The former Illinois Senator has been compared to one of the most popular US Presidents, Abraham Lincoln who was seen as the Great Emancipator, Freer of the Slaves and the Healer of a Divided Nation. Obama swore his oath of office on Lincoln’s Bible.

Buried in that era of slavery and Civil War are a few chapters of the American “Indian” Holocaust of 115 million, the biggest in all humanity, that began long before Lincoln and continues today. While Mr. Lincoln was earning a fake place in history, he signed the Homestead Act in 1862. This was a law offering huge tracts of our

lands to foreign white settlement. It was put through without consultation, without consent and without regard for the rights and needs of our people. Eventually 1.6 million homesteads were granted on our land and 270,000,000 acres of our territories were privatized between 1862 and 1986, which is 10% of all lands in the U.S. In the conflicts that raged over this illegal action, thousands of Ongwehonwe men, women and children were killed and millions of acres of our territories remain unlawfully occupied. This has nothing to do with honesty, courage, fair play and tolerance. Obama's speech demonstrates clearly his concept of loyalty and patriotism has nothing to do with respect for the Ongwehonwe of Turtle Island and our future generations. [<http://www.nathankramer.com>]

Two days after Lincoln signed the "Emancipation Proclamation" in 1863, he signed an order to hang 38 Dakota Sioux in Mankato Minnesota. There were only about 40 adult men of fighting age left out of 400 "prisoners of war". The U.S. agent refused to feed the Indigenous people and was selling the rations that were meant for them. The men begged for food for their people who were starving to death. He told them to eat grass. They killed him and stuffed his mouth with grass. [Visit www.republicoflakotah.com]

These details of American history are rarely visited. John F. Kennedy basks in the glow as a champion of civil rights. He had no problem violating human rights and the treaty with the Seneca Nation. In 1960 he broke a campaign promise and approved the flooding of thousands of acres of Seneca land and the construction of the Kinzua Dam in upper New York State.

Today New York State has a black Democratic Governor, David A. Paterson. He has just signed an illegal document authorizing the destruction of the existing economies of eleven Ongwehonwe communities in the state. It is obvious the Americans are the big bullies they've always been since King Henry VII issued the "Cabot Charter" in 1496. It authorized the capture and plunder of any lands belonging to non-Christian people that might be found.

[Avalon.law.yale.edu/15ph_century/cabot01.asp]

Many Ongwehonwe have embraced this new U.S. President Barack Obama. Many of us do not. We hope that he will not earn the traditional title, "Rahnatakias", which is our word for U.S. President. It means "town destroyer". In 1779 the first President, George Washington, ordered the genocide of all Rotino'shonni:onwe, Iroquois people, our communities and food sources in the lands between Wyoming and the Canadian border. He eliminated over a hundred thousand of us by famine and disease. [<http://www.joycetice.com>]

No, Obama is not our president. He is the 44th man to hold the title of Rahnatakias on behalf of the colonists who are occupying our territories. The valid nation-to-nation relations with Ongwehonwe are always a low priority or non-existent for any colonial administration.

People are looking to Mr. Obama for a solution. The true test of his promise of change will come in the treatment of the Ongwehonwe. Is he going to be another two faced reformer, a Washington, a Lincoln or a Kennedy, who preaches equality and freedom while crushing us under his heel? We refuse to be put under colonial "Federal Indian Law" headlocks.

The U.S. will not stop its decline by continuing to dispossess and oppress us. They have to meet us on the original nation-to-nation terms. We have never surrendered our jurisdiction over ourselves or our resources or our territories. They have to acknowledge the crimes of the past. They have to reign in their colonizing beast. They have to stop feasting on the dead bodies of our ancestors. They have to stop dancing so hard on our lands and resources that they starve and suffocate the generations to come.

SHOWDOWN AT THE "WESTERN DOOR": SENECA V. NEW YORK STATE

MNN. Jan. 16, 2009. The Seneca Nation of the Rotino'shonni:onwe, Iroquois Confederacy, are demanding that the colonial state of New York stop illegally operating an unlawful business on our territory – which is the Interstate Thruway #90. It is an unlawful business on our land. At the same time NYS is trying to destroy a significant part of the Nation's economy by imposing illegal taxes. They have no jurisdiction over Ongwehonwe or our territories which is all of New York State and beyond. Every inch of Onowaregeh, Turtle Island, is unsurrendered Ongwehone territory. The U.S. and Canada are colonies that have no land. They are illegal occupiers.

The trusteeship of the territory in the people is affirmed in the constitution known as the Kaianerehkowa, the Great Law of Peace, which is the true law of the land. The Seneca Nation and New York State clashed back in 1992 and 1997 leading to civil unrest in the local Seneca communities of Allegheny and Cattaraugus. With a February 13th 2009 deadline looming for collection of taxes on cigarettes sold to Ongwehonwe communities by wholesalers, the Seneca Nation is preparing for another clash with NYS. Speaking for the Seneca of the "Western Door", Barry Snyder says the people will take any action necessary to protect its people, economy and way of life. In the 1997 clash NYS spent \$30 million to bring in heavily armed troopers and tactical squads into our communities. Physical assaults were committed against women, children and men. [Shades of Palestine!] Thruway #90 was closed. Tires were burnt. Charges were laid against some of our people. Then NYS Gov. George Pataki backed off and rescinded any enforcement efforts to collect NYS taxes or impose tax law on us and our land.

The Senecas are now devising a system to collect tolls on the NYS Thruway through Irving. People are being urged to stockpile basic needs. Up to \$1 million of Seneca money is being set aside for emergency response. And the Seneca are petitioning U.S. President Obama for federal protection from NY State and respect for our jurisdiction.

To be legal the Thruway requires a license from the Seneca Nation whose territory it's on. Billions of dollars that should be going to the Seneca are being poured into NYS's economy. The landowners get nothing. In response to the latest affront to our sovereignty, on April 14, 2007 the Seneca rescinded the 1954 agreement with NYS to use Nation territory for its highway. Outstanding is the compensation for past land use which NYS refuses to pay. Since May 12, 2007, \$1 has been assessed on each motorist using the Thruway, leaving NYS \$20,247,557 in arrears.

As if that's not bad enough, to put pressure on us to submit, NYS is once again taking illegal actions to impose an embargo on tobacco products. This is a direct threat to the people who are recovering from the economic devastation imposed on

us by the state and federal governments. Since Sullivan destroyed the agricultural industry of the Rotino'shonni:onwe, tobacco has been one of the most successful economic endeavors of our people. It has emerged from our traditional cultivation, trade and commerce traditions. Our people have every right to take all actions necessary to protect and defend our freedom, economy and unsundered sovereignty and territories.

The \$1 million being set aside for "emergency response personnel" is to provide access to medical care, ensure that children get to school, and that all residents can go about their daily lives without interference. People are stockpiling everything. The history of our relations with NYS has been troubled from the start. NYS has tried to interfere with our treaty rights to tax-free commerce twice in the last few years. The only responsible approach is to protect our people by preparing for the worst.

The people have instructed their Planning Department to build a system to collect tolls on the New York State Thruway. The Seneca also intend to increase the current per-car toll to \$2. They also filed an action in the Seneca tribal courts to declare that the Thruway is an illegal invasion of sovereign Seneca territory.

The Seneca are asking U.S. President Obama to respect the provisions of the Canandaigua Treaty of 1794 to provide protection for the Seneca from the crimes being committed against us by NYS. Obama probably does not know the history of our relationship with the British and U.S. invaders. We never agreed to become British subjects, or NYS or U.S. citizens. Our relations have been highly irregular especially since the American Revolution of 1776. It's time to stop the abuse and set things right.

On December 15, 2008 NYS Gov. David A. Paterson illegally signed a law to subjugate the commerce of all Ongwehone communities under the authority of NYS. We don't know what theory of legality he is operating on. You can be sure it's not based on human equality or the principles set out in international law and the U.S. Constitution, for that matter. NYS would never abide by Canadian laws if Canada ever chose to colonize New York. By a temporary order of State Supreme Court Justice Rose Sconiers, his law cannot be enforced. A hearing is set for January 27, 2009 to decide whether a permanent injunction should be issued against NYS to stop it from implementing illegal policies.

The actions by NYS Gov. Paterson look like a deliberate attempt to fuel anti-Ongwehonwe sentiment. He is drawing a line where none should be. He is refusing to respect legitimate Ongwehonwe jurisdiction and boundaries. There's no sign that NYS intends to respect the law. NYS is on a collision course as before. NYS should know by now that the Seneca will not stand down. We will unite and fight for the right to support our families and to protect our homes and territories. “HOOF LADIES” CHASING INDIGENOUS YOUTH: THE COLONIAL STATE’S OLD SEXUAL PERVERSION STRATEGY

MNN. Jan. 10, 2008. There is an old Haudenosaunee story about the “Hoof Lady”. She appears to our youth in various guises to stop them from doing wrong. She also appears in order to test them. For example, when our young people are hiding in the bush drinking alcohol, an ugly apparition appears. When they notice her hoofs and her scary gestures, they are terrified and run away. She could also entice them to do bad things by appearing in other human forms, both male and female. They could be blond, redhead or brunette to lure our youth! This “shape shifter” is usually an outside unfamiliar person who could show up at times when our minds are weak and vulnerable and we don’t notice her hoofs. The “come-on” might be visual beauty or “other attractions”. The decoy could lead them to do something unnatural because they think no one is watching. In the end the Hoof Lady can grab control of them. Eventually some of them have been induced to go against their people.

There is no mystery about where some of these Hoof Ladies come from.

Sex is one of the most potent ways of infiltrating a person. It is a seriously damaging colonial strategy to weaken community and resistance through demoralization of the youth through sex. Sexual enticements and perversion are meant to compromise and take our young people to an unnatural form of sex they have a hard time getting out of. It is confusing. They know it’s not love. It’s self degradation meant to mess with people’s emotions. They feel ashamed of being used.

This has nothing to do with valid loving relationships that exist between our peoples. We appreciate and continue to need the support of our friends and allies. A few members of some of these support organizations have been caught doing some dicey things in our communities. Our youth have reported some un-enticing persons have attempted to use kinky sex and drugs to infiltrate us.

Our people and our culture were never intended to go to these ugly places. Sex is supposed to create ‘sacred’ bonds that ensure the care of children and help the whole community to survive. Sexual exploitation hurts us all. The strategy is to pervert a beautiful human experience. In fact their form of exploitive sexual relationship is abusive, degrading and confusing. These non-Ongwehonwe persons manage to compromise some of our young people by encouraging them to violate cultural norms and take part in unnatural shameful sexual acts. The goal is to break down protective social barriers. They have shared a guilt ridden experience with someone. It’s another way of breaking down our defences by trying to drag us down to another level. We are made to feel uncomfortable with each other. Our powers are siphoned away. This strategy was used in the government run residential schools where our kids were sexually abused and emotionally violated, leading to their deaths and lifelong self-hatred of many of them.

These shape shifters plant stories to breed distrust among our people. They try to interfere with our most private and intimate relationships and trying to break up

families. They want our minds by going after the bodies of our young people. Our elders who protect them are avoided.

This behavior straps the strength of our youth, leads them into doing things beyond what they would normally consider. In the end they have a hard time getting out of it without help from our community.

These shape shifters divide our people. Key members are targeted. One respected person was tempted to go into the city to have “three way sex” with them. When confronted, one said, “Who wouldn’t refuse this kind of invitation?” No one has a right to disrespect our women. Respect for our women is all-important, especially among our youth, who are most sexually active. Some even younger than twenty are being targeted for seduction. At another one of our communities during a protest volunteers arrived to work in the kitchen. The next thing we knew they were having sex with various people causing chaotic situations.

Some have said, “I am no longer worthy because I fell for it”. They are made to feel unworthy, rejected by the community and vulnerable to being used as pseudo representatives by the colonizing culture. These shape shifters advertise their exploits to discredit our people. The state now thinks they don’t have to worry about these targets anymore. They induce this kind of behavior using mind altering drugs and alcohol.

Our stories remind us that we are still Ongwehono. These shape shifters work on our emotions and psyche. We are alerting our young people to be observant, to stay conscious and vigilant. Don’t take anything for granted. Watch for those shape shifters who offer quick pleasure.

Concentrating on our youth is meant to break down the traditional values and relationships between our people. They create guilt, humiliation and depoliticization. Our youth feel lost to the traditional movement because they went against their own righteous standards. They are being ripened to be used by the state. The late Kevin White wrote about this in his book, “Where Eagles Dare to Soar – Indians, politics and AIDS”. [<http://www.mohawknationnews.com>] This kind of behavior is rewarded by the state. Prime Minister Stephen Harper recently appointed Patrick Brazeau of the Congress of Aboriginal People to the Senate of Canada. It follows this established strategy of tarring the reputation of all indigenous people by creating the impression that they can’t find any “aboriginal” representatives who are not degenerates.

These tactics are used internationally to break down native values. To protect ourselves from the enemy’s schemes, our young people have to be traditional in their outlook and in their relationships. These colonial parasites will bring their smut and vulgarity into our homes to try to tarnish us. They steal our money, our land and our resources. Then they lure our youth into this ugly emotional void. It is meant to alienate and destroy us.

Our young people are precious to us. They have been misled. We can’t let them go. They are victims of sexual depravity promoted by the colonial parasite class. How do we bring those who have fallen victims back home? How do we maintain a healthy outlook in our relations with each other? We need open and thorough discussions about it. We have to respect ourselves. We have to promote resistance, wisdom and high standards of behavior of our people. We need strong families raised in a spirit of love, affection, strength and integrity. We need them to defend us and build our future.

Let us face up to these terrible attacks against the core of our culture. Our lives should be an open book. Not a dark corner where we can do anything we please. We all have choices. We have to refuse to let these shape shifters disgrace us through our youth. We know our youth don’t want to betray us or fall into the swamp of corruption made by the colonial forces. We have to help our youth climb out of

that swamp and come back to us without the outlook of the exploiters. We have preserved ourselves for a reason. We need clean consciences and good health to fight colonial decadence and imperial ugliness.

THE RULE OF WHAT LAW? CANADA'S OBSCENE ROLE IN GAZA ATROCITIES – WEAPONS NEED TO BE BURIED

MNN. Jan 7, 2008. How many Palestinian infants, toddlers, children and schools have been bombed by the criminals in charge of Israeli forces in the last few days? What law are they following? An eye for an eye! A tooth for a tooth! This is primitive barbarity. The Israelis claim if they kill enough Palestinians, Hamas will stop sending in rockets. Conveniently overlooked is the fact that Israelis have built a wall around Gaza to control every Palestinian and everything that comes in and out of the ghetto to deliberately force the people into desperation. Also forgotten is that parts of the new smart bomb, GBU 39, designed for urban warfare, is made in Canadian facilities with the help of government tax breaks and Canada Pension Plan investments. This is obscene!

Gaza is occupied Palestinian territory. The Israelis and Americans toppled the democratically elected Hamas government because it couldn't control them. The war is being waged on civilians who have no arms nor anywhere to hide. How noble is it for heavily armed Israelis to shoot fish in a rain barrel? The Palestinians have a right to live. They can only lob their homemade rockets into Israel. The Israelis attack them with illegal weapons. All weapons are illegal. Manufacturers should be prosecuted. The weapons collected and buried.

The United Nations is looking more like a bogus organization that serves the interests of a handful of war mongers who are trying to profit by setting up a New World Order. This is where the bankers and war mongers are the bosses and we are supposed to be their slaves. We fear the UN is setting up an "international department of Indian affairs" to control all indigenous peoples and resources worldwide.

Obviously the U.S. cannot broker the peace agreement when they are supporting Israel's attack and supplying the weapons. We Indigenous went through the same plot. To stop the invading Europeans from killing us all off, we were forced to give up our possessions and territories. We resisted. 115 million of our people died in the biggest holocaust in all humanity. The survivors had to live in concentration camps called "reserves". Today the Israelis and their backers are carrying out the same sequence of events in the Middle East. The UN, US, Canada and Europe are part of this.

The majority of the people in the world are appalled by Israel's atrocities. They have killed over 500, mostly civilians. Over 2000 have been cruelly injured by illegal weapons made from depleted uranium and phosphorous. Palestinians have reached out to their Arab brothers and sisters whose governments are controlled by the West.

Iran could be nuked by the U.S. if they helped their Palestinian family. We know how hard it is to unify. The colonists constantly work at dividing us. We too were starved and abused so they could grab our territories and wreak environmental havoc. Just follow the “blood money”. Canada helps craft and support this cynical conspiracy. 10% of income tax goes to the military. The Canada Pension Plan contributions are invested in Carlyle Group and such weapons makers as NG [Northrop Grundman], L3Com, BAESystems, Bombardier, Raytheon, DRS Technologies, Boeing and many more. How many people get their pay check directly or indirectly from the military industry?

Mineral resources to make these deadly bombs and destroy the world are being stolen from our territories that have been left polluted in the process. We constantly object and are threatened and subjected to impoverishment. Our social programs, health care, education and infra structure are cut back or stopped altogether to shut us up. For example, the dissidents of the Algonquins of Barriere Lake Quebec have moved out of their communities and into the bush. They are unwanted because they are trying to stop deforestation, demineralization and water diversion of their territory. The guys trying to control our territories are finding the biggest obstacles are the sovereign legal resistance of the Indigenous people. A huge intelligence network has been set up to undermine and control our people and put out misinformation to us and about us to the public.

Survival is natural. To murder babies, women, men and elders is not natural. The Palestinians are struggling to survive. Those who follow this natural instinct are labeled “terrorist”. In fact we are defenders of our people, land, nation, very existence and Mother Earth. Every living creature has a right to carry out the natural instinct for self-preservation. Creation put that in us.

The war mongers tell us we have no right to self preservation. The Palestinians are being forced to live under the apartheid “Indian Act” system of Gaza which is being rammed down their throats. The same apartheid system was imposed on us and continues here. They pulled out papers on us. What are these papers? Why does their paper have more authority than human rights and our lives? Is it because they have a big gun and can constantly threaten us? This is thuggery!

The idea that peace can be bought at the end of a gun has been proven false time after time. Fanaticism has never solved anything. Truly impartial people must be found to form a body that can broker a true peace. Peace will come if people learn how to stop being greedy. There has to be a real willingness to assert equality and a voice for everybody. There will never be peace of mind on the terms of the war mongers and their cohorts that want control over us, our land, culture and resources. According to the Kaianereh:kowa, the Great law of Peace, the grievances felt by people on both sides has to be acknowledged. We, the Rotinoshonni:onwe [Iroquois] have a ceremony called the “small condolence” which we perform before any negotiations. It is all symbolic. The eyes are wiped with the softest skin of the deer so that we may see the issue clearly; the ear is cleared with an eagle feather so that we may listen and hear what is being said; and a glass of clear water is drunk to clear our throats so that only those words that have no jagged edges will come forth. Unfortunately, it looks unlikely that these few war mongers will look for methodologies that can bring true peace. They are making too much money. If we choose we can organize an economy so that people can be rich without obscene torture, death and famine. First the arms have to be buried.

True peace requires work. These war mongers have to be dealt with. The people have to stop listening to their propaganda. These greedy war mongers don't have borders and no loyalty to anybody but their bank accounts and their lust for the power of life and death over us. This 3% of the population are multi national corporations,

their governments, their military and their agents. They own the banks and try to control everything. They fix the economy to hold us hostage. The Palestinians will not die quietly in the Gaza ghetto from starvation, thirst, bombs or anonymity.

The GBU 39 is the newest small bomb which weighs 250 lbs. known for its accuracy and huge explosive power built into it. A plane can carry 4 and drop them separately. Used in Iraq and afganistan in urban warfare. The Gaza is really a refugee camp. Northrop Grunman makes instruments for these units, other warheads, bomber planes and helicopters. The Canada Pension Plan contributions are invested in Carlyle group and companies like NG, L3Com, BAESystems, Bombardier, Raytheon, DRS Technologies and many more.

GBU-39 are made in the U.S. by Boeing, Lockheed Martin and Harris Corp. with Viasat Inc. with offices in Canada. The #1 bomb for the "war of terror" because they are small, accurate and very deadly. Excerpts from <http://www.globalsecurity.org/military/systems/munitions/sdb.htm>

At just 5.9 feet long the bomb increases number of weapons an aircraft can carry, therefore raising the amount of people it can kill in one sortie. Complementing the weapon is a smart miniature munitions carriage system. The munition, with a smart fuze, has been extensively tested against multi-layered targets by Wright Laboratory under the Hard Target Ordnance Program and Miniature Munitions Technology Program. The goal is genocide to wipe out people and make their territory unlivable. Yaakov Katz wrote an article in the Jerusalem Post on December 29th 2008 that the Israeli Air Force is using new U.S. supplied smart bombs. [\[http://www.jpost.com/servlet/Satellite?\]](http://www.jpost.com/servlet/Satellite?) "a new bunker-buster missile made by [and 1000 bought from] the U.S. to strike Hamas targets in the Gaza Strip. The GBU-39 missile is a small-diameter bomb for low-cost, high-precision and low collateral damage. [They] ... arrived in December 2008. They penetrate underground Kassam launchers during the heavy aerial bombardment of Hamas infrastructure... It was used in Sunday's bombing of tunnels in Rafah [where civilians are taking shelter]. This 113-kg. bomb can penetrate like a normal 900-kg. bomb, although it has only 22.7 kg. of explosives. It is 1.75 meters long. ... It can penetrate at least 90 cm. of steel-reinforced concrete... used in any weather and has a standoff range of more than 110 km. due to pop-out wings".

“Military Intelligence's Psychological Warfare Department broke into radio broadcasts in Gaza and warned Palestinian civilians not to cooperate with Hamas terrorist activity”. Palestinians received recorded messages on their cell and land phones from the IDF ordering them to immediately leave their homes that IDF purported were next to Hamas infrastructure or being used by the “terrorist” organization. Defense officials said Israel will not hesitate to target civilian homes who they feel might protect Hamas terrorists. Could this be the reason behind the killing of infants, children and civilians?
