

CANADA SECRET SERVICE SPYING ON ONGWEHONWE - DESPERATE FOR SOMETHING TO DO? Or is the colonial hierarchy cracking up?

MNN. Nov. 30, 2008. As we are seeing more and more clearly everyday, Canada has always been a totalitarian for-profit enterprise even though it tries to masquerade as a democracy. Canada is a Euro colonial settler state that governs by passing race laws. Every now and then declarations of legal rights are made to make things look kosher. But when push comes to shove, these are ignored. Things are done at the point of a gun by open terror and genocide.

What information could the Canadian Secret Intelligence Service [CSIS] possibly be looking for in Mohawk communities? How many dogs we have running loose? How many rusted cars and old fridges are standing in our yards? We notice they don't want to report on how bad our water is, or how corrupt the band council is or about the lack of funds for our education, medical care and housing. So what's happening? Whatever anyone says, CSIS covertly sneaking into our communities can't be for "national security". We've never been a military threat to Canada. CSIS is coming in as an agent of confusion to "terrorize" us! What have we got that would scare anyone? Except, of course, for THE TRUTH!!! The land every Canadian stands on and all the resources in it belong to us. That's why they're trying to brainwash us and the Canadian people.

Everyday we are seeing more cracks in the broken "democracy" called "Canada". We Mohawks are targeted because we ask too many questions. We are always challenging their actions and asking them to prove the legality of what they're doing. They want a "white" nation. The colonists associate "Indians" with a certain degeneracy of intellect, morals, self-restraint and political values. That was their excuse for stealing our resources.

Canada sets us up as targets because they want to divert attention away from their economic and social problems. They need someone to blame. They want the public to believe we are dangerous. Never mind that their government rakes in millions from cigarette taxes. They spin it as the murky world of "contraband". They make it sound like it's a crime for us to support our families by legally selling tobacco. Their border is the "apartheid wall". Their border guards routinely harass us and even try to kill us when we try to travel on our territory. Canadian agencies refuse to investigate these criminal acts. All their police, the OPP, RCMP, Canadian Border Services Agency and the colonial Akwesasne Mohawk Police, claim it's not their jurisdiction.

We are denied due process when they assault us. Two Mohawk women have been declared as "non-residents" of Canada in order to make them pay for the Crown's defence in the law suit they filed against Canada for not investigating border brutality! [M. Mireille Tabib, Oct. 23, 2008, Kahentinetha & Katenies v. The Queen T-1309-08]. If Kahnawake and Akwesasne are not part of Canada, then why haven't they removed the illegal border control at Akwesasne? On the one hand, they say Akwesasne is in Canada so they can put their border there. On the other hand, they're saying it's not so they can force us to pay thousands of dollars to make border guards accountable for the assaults and crimes against us. Canada has plans to

build a great big international high tech border installation at Akwesasne. We don't want it.

When three non-native people recently died in a botched border operation at the very same spot in Akwesasne, all those self same police services were stumbling all over each other to investigate. What's the deal? The safety of "white" people is precious? Ongwehonwe safety doesn't matter?

Presently Cree elder, David Ahenakew, is on trial for the third time because of some ill-considered private comments he made about the Jewish genocide in World War II. Remember, he didn't kill any Jews. When he served in the military, he took part in the operations that freed people and helped stop abuse. The genocide against our own people is generally ignored. Why the double standard? Why is he being prosecuted with so much vengeance when Canadian border guards can attempt murder with impunity?

These incidents just nibble at the internal conflicts raging within the colonial government apparatus. The Maher Arar and Omar Khadr cases, the extensive secret military exercises in November 2008 near so many Ongwehonwe communities, and so many other disturbing developments suggest that we are being prepared for totalitarianism or martial law. All it will take now is a pretext to bring it in. Another 9/11!

When the hierarchical colonial system is threatened, it resorts to "fratricide" to clean out its ranks. The higher ups become paranoid. They start getting rid of their underlings who they fear want to replace them or expose them. We certainly are not in these kinds of positions nor do we want to be. We'd rather stand back and watch the poisoning and beheadings going on in the palace, so to speak.

Canada is still trying to look calm while it screams hysterically from within. They don't want people to smell the blood beforehand. To divert attention they're looking for those with opinions different from theirs to start imprisoning and shutting them up. The state is using slander and historical distortion to defame us and get the media to suppress discussion of the real issues. The current attempt to purge the Mohawks is based on false claims that we are likely to sabotage Canada. Nothing could be further from the truth. We've always stayed in our own boat according to the Two Row Wampum Accord. We have never committed any violence against Canada. In fact, we have defended Canada several times, going back to the War of 1812 right up to World War II. Of course, if our historic ally chooses to attack us, we will always defend ourselves.

The violent and unfounded fantasies about us serve someone's purpose. People get a chance to use lethal weapons when Canadian agencies send in cops and spies instead of talking with us on a straightforward and honest nation-to-nation basis. CSIS is Canada's secret police look for demons and devils they can finger for purging. We've been told actions of this kind must have ministerial approval. Who is the prime sinister?

Canada is ruining its international image because of the abuse and needless suffering that it causes to all Ongwehonwe. Up to now they've kept a lot of their skeletons in the closet to make it easier for CSIS to set us up. CSIS defames us by playing on the active imagination of a gullible public.

CSIS has been sent in to corrupt our "leadership". They should know by now that we have none. Who is active in our Men's Society? Who is the intelligentsia? [As if we aren't all intelligent] They are trying to make us mistrust each other. They want to turn us into "fifth column" communities. They think they can get away with it because we are a minority. They figure no one will help us when we're attacked.

The young and the vulnerable are targeted. When they're snatched, the cops force them to "confess" to anything regardless of the truth. Some of their lines are: "Either

you comply with us or we'll charge you". "How well do you know your community?" "Who are you related to?" "Someone told me this, is it true?" "Do what I say or I'll break your arm". Their old favorite, "Who are your leaders?" CSIS wants to have us charged with "counter revolutionary crimes" based on their racist colonial laws or those they intend to create!! Yes, we don't like the colonial Canadian system as it has been shown to us.

We know that Canada thinks that our land, cultures, bodies and minds must be sacrificed for the colonists to remain dominant and for their system to continue to function. Canadian occupation of our land and the usurpation of our resources are illegal under international law. One of their frequent tricks is to get someone to invite us somewhere and then set up a "disappearance". Rumor has it that now that we've been declared "insurgents" a secret military tribunal has been set up to try us. Bye bye habeas corpus! Is Canada getting dangerously edgy about having their "turf" stepped on by the real owners, us? Well, CSIS, you've been hung out on the clothesline to dry and your brown-laced underwear is flapping in the wind. What are you trying to prepare us for? The "final solution"? Genocide?

DID YOU VISIT YOUR RELATIVES TODAY? IS THIS PALESTINE OR SOON-TO-BE-ONGWEHONWE COMMUNITIES?

MNN. No v. 25, 2008. It's called "warehousing of surplus humanity". All humans are equal. No one can decide that we are surplus. The object is to remove the target people from existence. This is real, folks!

First, the territory of the targets is occupied. Their communities, work, education, finances and colonial apparatus are controlled by the outside forces. The agenda is carried out by the bureaucrats and military. They are trained in oppression using non-lethal weaponry to stay within the bounds of the UN human rights conventions.

A fascist state needs an uneducated non-resisting people. To achieve this, lots of interference in every day life, schooling and economy are priorities. The youth are specially interfered with. Places of work, schools or commerce are not set up within the communities forcing them to work or attend school or shop outside.

The target group is usually isolated from anybody who could help them. They are demonized. There is a media blackout so that the perpetrators can "warehouse" other victims later on who will be unprepared and unable to defend themselves.

Eventually walls are put up around the targets with checkpoints everywhere. Food and essentials are stopped from going in and out. Electricity is turned off. Water is undrinkable. The bus breaks down. Detours are set up everywhere forcing them to spend hours to carry on their normal lives. "Flying [mobile] check points" are set up everywhere on a permanent or temporary basis. They can arrive and stay for minutes or hours at any place anytime. Anybody can be arrested for going to meetings to discuss their plight.

The situation gets worse. Blockages of the community become more often and more severe. Sometimes nothing goes in or out. Electricity is cut off more often so that raw sewage flows in the streets. Houses can't be heated. Refrigerated food goes bad.

To instill fear schools, institutions, hospitals and even homes are threatened or burnt down or trashed. Teachers, workers and service providers stop giving services "to protest the blockades" or "dangers" they are forced to work in. Papers, books and communications are kept out or controlled. No one gets trained to be a doctor or professional which are necessities in such communities. 90% have no job. It comes to a point where some families can only send one child to school or out to work. Each family is allowed one member to have a job.

Because of the system of checkpoints and walls, workers and students have to leave home and live near schools or their place of work to avoid 4 hours a day of travel which normally takes 20 minutes.

The targets are constantly reminded they are being watched. The police or special army units walk into their homes, at 2:00 am, without knocking, ask for ID and then take them to the police station. They study the personality of the targets and look for collaborators or spies to work with them. They take unflattering pictures after the interrogation or torture so the targets look like criminals.

Nighttime is the worst time. The targets are kept awake. They could be taken away at any moment. Soldiers come inside, point guns and start beating anyone in their sight. They yell, "Give me your ID". People are forced outside without shoes or proper clothing. Hundreds of their community members are on their knees in the streets, sometimes until 3 am. Names are called out by the police on speakers. Some are taken away and interrogated for 5 hours and asked if they saw anyone throw stones or speak badly of them. This excuse is usually bogus.

There are 7 to 8 hour waits at the checkpoints. Students or workers can only go home once every 6 to 7 months to visit their family. They have to sneak there and sometimes have to hide out all night. They can't use the main roads and are forced to go into the woods or mountains. All of these atrocities are video taped by the oppressors with cameras everywhere. These are for study, training, propaganda and their own perverted pleasure.

The students or workers have to leave 2 hours before class or work to go 5 minutes away. Everybody is fingerprinted at the checkpoints. All their bags are checked. Their iris is scanned and their biometric identification with all manner of information and misinformation is scanned.

Curfews are set up throughout the communities and towns. Mobile military checkpoints are put on tanks and jeeps with snipers watching over them. Communities, schools or institutions are closed down at will. The strategy is to make sure students cannot study or people cannot work, meet or move around. If they object, the children, women and men can be "detained" or beaten or even shot.

The main gates have high security electronic doors. There are "blind" checkpoints where military jeeps suddenly appear and demand IDs. People are forced to wait for minutes or hours. No one can complain during this examination. The police or military can invade the community or shoot and throw tear gas at anytime if they perceive a security threat. Anyone can be jailed. Young men are in put in prisons. Beautiful young girls are forced to take off all their clothes and crawl on their hands and knees through the checkpoints. They are made to eat food that is forbidden by their culture or they are allergic to.

Palestinians say this is how they are being treated by the Israelis. Canadian police and military are being sent to Israel for training on "crowd control". Many of these fascist tactics were used on us during the 1990 Mohawk Oka Crisis. 5,000 Canadian soldiers surrounded three of our communities [Kanehsatake, Kahnawake and Akwesasne] behind razor wire and fully armed troops. It was because we opposed the desecration of our burial and ceremonial sites. We were surrounded by walls of police, soldiers, armaments and checkpoints for 78 days. We had to wait for hours to get through them while suffering specially designed humiliation from the soldiers and police.

Canadian soldiers went into Mohawk homes purportedly looking of weapons. They smashed everything and even s--t on the floors. Many of us were arrested for no reason or for "political activities", which is called "administrative detention".

Canada is no goody-goody! Canada collected much secret "information" about us. They refuse to disclose it because their misconceptions and misinterpretations could be challenged. Prime Minister Stephen Harper wants to change the laws so that the

youth as young as 14 years old can be sent to adult prisons! This looks like it's aimed at our Ongwehonwe youth.

How can such cruel conditions be created by members of a well- educated nation whose ancestors were subject to unspeakable abuse? Canada is bringing back these practices that originally came from here. The South Africans learned "apartheid" from Canada. Laws and policies were passed here to mistreat and demoralize us and cut down our population. The colonial strategy included genocide, the pass system and mental and moral abuse. Hitler praised Canada and the U.S. for their thoroughness in getting rid of the "Indian problem". He copied the reservation and residential school systems for his concentration camps. Like Canada he tried to instill hopeless, to break down our spirit and to kill us off. It will never work. We will always be here on our land.

PAINT BALL GAME GONE WILD! SECRET MILITARY EXERCISES NEAR MOHAWK COMMUNITIES? [In-depth Report]

MNN. Nov. 19, 2008. If Canada is such a peace loving country, why is it saber rattling and playing war games like "Vigilant Shield 09"? Huge military exercises are taking place on Turtle Island this month. These are being run by "NorthCom" and

"NORAD" [North American AeroDefence Command]. NorthCom works with "Canada Command" and coordinates civil incidents through the U.S. Department of Homeland Security DHS. This has nothing to do with Afghanistan. It has to do with "civil" control, not democracy. The Canadian part is called "Determined Dragon, Trillium Response". [What bunch of jerks made this one up? Sounds like some kind of teenage fantasy video? These guys are scary!]

In the U.S. during a "disaster or emergency" JTF-CS operates within a Department of Defense chain of command that begins and ends with the President of the U.S. Canada is on this dog chain. In other words, it gave up its independence. Civilian agencies, including "State, local, territorial, and tribal [band] governments, and private sector owners and operators of critical infrastructure," would be controlled by the military. They define the "disaster" that will lead to world domination.

What's going on here? Details are scarce, especially on the Trenton Air Force Base aspect which is near the Mohawk community of Tyendinaga. Another exercise is going on in Hamilton, near Six Nations. Another in Thunder Bay. Are there others? Is it a coincidence that these are mostly next to Ongwehonwe communities?

The main focus is "Communications Interoperability" to coordinate various agencies: the military, Joint Task Force JTF, army, navy and air force; all police agencies, RCMP, OPP, CBSA, "Aboriginal" police, municipal police; emergency responders, ambulances, fire trucks, rail security and select government bureaucrats; and the effected private sector such as nuclear reactors. "Interoperability" means coordinating all their goons and thugs to have "Joint War Games".

It looks more like an exercise designed to set up the infra structure needed to impose "martial law". Communications and radio frequencies will come under one command. The new device called the "Incident Commanders" Radio Interface looks like a cigar box, about 5" x 8" x 2". It can be held by one wired-up adolescent to receive and send messages to all these agencies during an emergency, natural or man-made disaster, including a "terrorist attack". But who and where are the terrorists? The only scary guys in the neighborhood is them!

NORAD is the North American AeroDefense Command, a U.S.-Canada control center based in Colorado, that is supposed to warn of an attack by aircraft or missiles. Project HAARP is the Pentagon-run "High Frequency Active Auroral Research Program" with plans to heat the earth's ionosphere, using high frequency radio waves. How do we know they haven't already been doing this? The military can send signals to nuclear subs and spy deeply underground [www.haarp.net]. This is based near Anchorage Alaska where military exercises are going on too. E Systems which is owned by Raytheon has the defense contract to run this. [They're the biggest arms makers and dealers in the world.]

It's all scripted. The U.S. has a "Hollywood Style" National Training Center NTC in California and Joint Readiness Training Center JRTC in Louisiana. They're not teaching peace. They're teaching warfare against Iraq and Afghanistan and whoever else gets in their way. Hi fi simulations are created, complete with mock towns and actors portraying natives and insurgents. One actor even dresses like a "tribal sheik". Bombs are exploded and rockets stream in from the countryside. Civilians scream and scatter. The victims wear gory make up to simulate bloody wounds and morbid deaths. Injured civilians are left behind by the soldiers. The soldiers secure the town before going in to meet with the "regional governor",

supposedly “to win over the locals” but actually to get information from him in exchange for money. The young natives are taken away to Abu Graib for questioning. [It has already been established that the methods used there include torture and death]. Observers judge and grade each performance. Our question is who are the “traitors” who help them set up these scenarios? [www.worldpoliticsreview.com] Are these same guys writing the script for Bin Laden and Al Qaida too? Meanwhile the Taliban will just have to keep on improvising!

In Canada in the 1990s, after the Mohawk-Oka Crisis, a mockup of the Mohawk community of Kahnawake was created at a New Brunswick army base to help soldiers practice warfare on us. Who played the Mohawks? Who played the cowardly treasonous band council? It gets worse! In Saskatchewan the target at the police shooting range was a stereotypical Indigenous woman.

Doing so many exercises in our communities is meant to desensitize us to the presence of armed soldiers over, around us and in our back yards. We forget the danger. We'll be close targets when the guns are turned on us.

Even more sinister is that these exercises can act as a cover for "real"/pretext events such as 911, the London bombings and the Oklahoma City bombing. It was hard to sort out what was real and what was an exercise. Cities where exercises have taken place such as Seattle are considered as being "prepped" for martial law.

These exercises involve hundreds of people, dozens of vehicles, boats, UAVs, helicopters and planes. Thunder Bay is the furthest inland port where large ships can load and unload and where rail and truck lines meet. Right now nuclear reactors are arriving here on their way to the Alberta oil sands. Rumors abound that these exercises will involve a simulated nuclear attack. At the same time US exercises are taking place in Alaska near the HAARP weather modification installation and in California where wild fires are now raging.

The Thunder Bay exercise will combine a severe weather event and emergency situations to create various scenarios. The first part will be an incident with a container ship along the federal port. Simulated will be collapsed buildings, human casualties, and toxic spills. The second will involve a rail incident. Simulated will be a response to a train fire/explosion and resulting toxic spill. Of course, they're trying to recruit Ongwehonwe for the military because they want “expendable” people to do their dangerous work.

For this, National “Defense” [offense?] will transport the Toronto Heavy Urban Search and Rescue group to Thunder Bay on a Globemaster aircraft: between 400 and 550 military personnel from the Immediate Response Unit (IRU) and 63 Domestic Response Company to arrive on 22 Nov. 2008 and leave by 25 Nov. 2008.

Involved may be the local civilian authorities such as “primary responders”, provincial authorities, imbedded media, the Coast Guard (to provide fire fighting and power generation), the RCMP and Naval Reserve divers. Included are “personal development activities”! [Steve Carroll, National Defence, 416-633-6200 ext. 5808, Fax: 613-631-5349 Carroll.SL@forces.gc.ca refer to CEAR 08-01-39685]

Our Haudenosaunee territory includes many "strategic infrastructures" such as nuclear reactors, nuclear waste stockpiles, chemical factories, rail hubs and harbors. The Great-Lakes St. Lawrence is a major industrial area. The military needs the

nuclear stockpile. By the way, whatever happened to the 500 tons of yellowcake that was dumped off in Montreal harbor last July 2008? It was in the papers. Then we never heard about it again.

Government agencies and actors roped into this “war movie” include Public Safety, Health Canada and Department of Foreign Affairs and International Trade. Guess what? Indian Affairs is in there like a dirty shirt? Why? This is coming right out of our budget for desperately needed clean water, housing, education and medical care. The “chain of command” starts at the Pentagon. Peter “Flat-Foot” Fisher of the Aboriginal Policing Directorate at Public Safety and Emergency Preparedness Canada is the link to the “aboriginal police” involved in the exercise [613- 990-2666 fax: 613-991-0691].

The recent horrific crash that killed three non-natives at the Cornwall Ontario border checkpoint in Akwesasne last week was a similar multi-“service” operation, by the Canada Border Services Agency CBSA, the Ontario Provincial Police OPP, the RCMP and the Akwesasne Mohawk Police. The guys on steroids with guns and fast cars are obviously trying to take control.

The Mohawk Police were chasing and ramming the van driven by the 21 year old non-native youth that ended in a dramatic fiery fatal crash. The cops created the kind of catastrophe they say they are protecting the public from. Two days later, while military exercises were going on in Hamilton, there was another strangely similar high speed chase of a non-native into the 6 Nations community which ended up in a crash and shoot out. Is this coincidence or was it planned?

We’re still waiting for answers at Akwesasne. Why didn't ambulances and nearby fire trucks take action immediately? Why did the Mohawk cops go straight for the load of cigarettes and not help the victims? Why were witnesses told to stop talking to the media about anything they saw? Was this staged to make an excuse to bring in the outside colonial agencies that don't have jurisdiction but we can't seem to get rid of? Watch out! They might be installing surveillance devices everywhere, like they did in Kanehsatake, or planting weapons to come in and raid us.

What's going on? Are these lunatics trying to bring martial law into our communities because the colonists are saying we can't handle the bedlam they're creating? The fascist method is to isolate and eliminate the source of greatest resistance to their plans. Let's face it, folks, right now one of the main resisters is the freedom loving Ongwehoneh. The military interest in us could have something to do with the fact that all the land and resources of Turtle Island belong to us. In the US militant groups are getting more scared and more armed. Frightened people with guns is a dangerous scenario! Nobody wants that.

BIG F--K UP AT AKWESASNE. GANG WAR BY CBSA, RCMP, OPP & MOHAWK POLICE ENDANGER LIVES AND VIOLATES HAUDENOSAUNEE JURISDICTION

MNN. Nov. 17, 2008. On Friday night November 15, 2008 around 8 p.m., an elderly couple, both 77, was returning from a trip to Montreal. They had to go through the Akwesasne Cornwall Island border checkpoint, a few minutes away from their home in Massena, New York. After crossing the bridge from Cornwall, they approached the intersection of International and Island roads just before the Canada Customs building, before heading to the U.S. Customs. Meanwhile the Akwesasne Mohawk Police were chasing a 21 year old non-native youth in a minivan on the Island. The youth from St. Jean sur Richelieu, Quebec, sped through the stop sign at the

intersection and smashed into the car of the elders. All three were killed in the crash and resulting fire.

Island Road passes through a residential part of Akwesasne known as “Kawehnoke”. It has no lights, no sidewalks, and the posted speed limit is 40 km/h.

The cops set up this lethal event with their usual disregard for the right of Indigenous peoples to live in peace and quiet. Their internal investigations will probably show that the cops and border guards were following “standard procedure” when they created this deadly catastrophe.

The youth was flagged as a “cigarette smuggler” by the Canada Border Services Agency CBSA and undercover intelligence that were in the community in unmarked cars and just standing around. He crossed the bridge over to Cornwall. There, RCMP and OPP were waiting for him. The youth saw them, turned around and headed back over the bridge to Kawehnoke, chased by the OPP and the RCMP. They called off their chase and told the Akwesasne Mohawk Police to take over, according to Ron Moran, President of the Customs & Excise Union.

The Mohawk police claimed they had called off the chase. Witnesses said the cop car lights were still flashing when they came down the hill in pursuit; after the mortal impact, the police ran to the van going after cigarettes; and they made no attempt to rescue the elders. A witness tried to open their car door. It was jammed. The car was already on fire and then became engulfed in flames.

The border agents and cops at this checkpoint are well-known for their lack of judgment, their brutality and their cavalier approach to the law. They have been violently attacking the Mohawks who have to go through this checkpoint on a daily basis. They use the “Akwesasne Residents’ Lane” that is supposed to make movement easier for residents as target practice. On June 14 2008 CBSA attempted to murder two grandmothers they had pulled over. One suffered a trauma induced heart attack. The two women tried to get the RCMP and OPP to investigate the attempted murders. Both agencies said they had no jurisdiction. It was the responsibility of the Akwesasne Mohawk Police, who have done nothing.

All these agents, CBSA, OPP, RCMP and Akwesasne Mohawk police, “without jurisdiction”, are fighting their gang wars in Akwesasne! We have documentary proof that all of these agencies claim they have no jurisdiction here. In fact, Madam Mireille Tabib of the Federal Court of Canada has recognized that Akwesasne is not part of Canada [Kahentinetha & Katenies v. The Queen, T-1309-08, October 23, 2008].

Guess who’s investigating this one? The OPP and the RCMP! Though they have no jurisdiction, they think they can perpetrate crimes! It looks like the families of these three victims could launch a big lawsuit against this IBET posse [Integrated Border Enforcement TaskForce]. Maybe Homeland Security should get involved as the elders are U.S. citizens. Sgt. Kristine Rae told the Ottawa citizen that the Akwesasne Mohawk Police Service asked the OPP to investigate the collision.

The Special Investigations Unit SIU, an Ontario civilian law enforcement agency, usually investigates any incident involving police that results in serious injury or death. The Akwesasne Mohawk Territory is out of the SIU's jurisdiction. The almost death and serious injury of the two women caused by the CBSA doesn't count! They

only investigate the death and injury of non-Ongwehonwe by their agents!!! It's called racism!

Policing is supposed to be a service requested by the people to take care of issues within the community. These four colonial mob agencies have brought their violent conflicts to our community without our consent because they think it's a "no man's land" for the colonizers and they can get away with it. The truth is that it's the Haudenosaunee peoples' jurisdiction. These mobs serve "outside racketeers" and extortionists who try to impose non-Ongwehonwe mayhem. They are "tax" extortionists with guns who rob on behalf of the colonial state. Some surmise that they may have been trying to rob the youth, grab his load and sell it themselves. Then they put these kids through their court system.

Everyone knows that cigarettes are legal. We are free to trade as we always have been since time immemorial. Neither the youth or the 77-year old couple deserved to die. What did the "border squatters" who have set up their illegal shop in the middle of our community want? To extort a share of our legitimate commerce! The colonial society has deliberately debilitated us so that we have no economy. It's no coincidence that Canada created a situation that killed old people. It's a culture that disrespects elders. It claims us as citizens but it has taken the Old Age pensions from our elders here.

We Mohawks feel deeply saddened by the tragedy that took place in our midst. We are outraged by the remorseless gangsterism of the colonial thugs that caused it. These hoods knew this poor young guy was not a native. They set him up because he was alone and unprotected. He died because of a failed economy and having no prospects in his own society. Poor people buy the cigarettes because they can't afford the state taxes used to support their parasitic government officials. There is hardly anything left over for proper education or health care for their people.

These thugs should leave Akwesasne. They are now using twisted logic to try to blame us for their gangland style "hit". They claim it all happened because we didn't support them! What a bunch of sickos! The only involvement of our people were the witnesses who tried to save the lives of the victims. People were out and about. The Mohawk Police officers showed no common sense when they conducted this lethal high speed chase through the middle of our community.

Anger and frustration about the accident and the chase is simmering across Akwesasne and beyond. If Canada wants to call trade in our cigarettes contraband, that's their business. It doesn't make it so. We think their gang wars are to get a piece of the action, as they see it. We don't want any part of them. We want them to get their fake border, goons and dangerous behavior out of our community. If they want to do s--t like this, let them do it in their own bedroom community. We've had enough.

All these people were killed over a load of cigarettes. Their creed is commercial greed before human life! The blame for this tragedy can only be laid at the feet of all these criminal entities, CBSA, OPP, RCMP and the Akwesasne Mohawk Police.

"WE'RE ONLY PRETENDING TO BOMB YOU MOHAWKS", SAY CANADA'S MILITARY

MNN. Nov. 13, 2008. The Canadian military planted a little notice in that corporate mouthpiece, the "Belleville Intelligencer", on November 12th that they are going to do "battle simulation" at nearby Trenton Air Force Base from November 13 to 16. It's a 20-minute drive from the Tyendinaga Mohawk community. "It's Just an Exercise" write the "Belleville Dummies". [See article at end].

The Mohawks have ordered these aggressive thugs to back off Haudenosaunee air space!

Could this have anything to do with the Mohawks filing an injunction to stop the next attempt to deliver the "porta prison" some time this week? We were not consulted nor gave our consent according to the traditional decision-making system of our constitution, the Kaianerehkowa, Canadian and international laws.

Why "simulated emergency scenarios" right next to Tyendinaga? How do we know what's real and not real here? "Smoke and emergency vehicles", OPP and military police are involved. Are these little boys playing war games and using us as targets! Is the media going to be imbedded in the army vehicles pretending to go off to war? The contact is Captain Mark "Smoke-and-Mirrors-Screener" Peebles, 8 Wing Public Affairs Officer at 613-392-2811, ext. 2041 or 613-243-6358 (mobile).

It is one of the biggest air force bases in Canada. What planes, helicopters and drones will be flying over us? Will they fly at night? How far from the base? Given the military record for environmental destruction, what toxins will be in the smoke? What weapons and live ammunition will be used? Will there be bloodied or dead-looking volunteers or bodies involved? Do these dead bodies get the boys all psyched up and stimulated, for what? To get their jollies by pretending to kill innocent babies, women and men?

At the time of both the 911 attacks and the London subway bombings, there were military exercises taking place nearby. Nobody knows for sure which is which and who is who? Such exercises confuse and scare people who could freak out, have a heart attack and even react as if it's real. The public could think this is another "pretext event" like 911. Then what happens? Why here and why now?

Amnesty International just released an open letter to Rick Bartolucci, the Minister of Community Safety and Correctional Services. They condemn the OPP actions at Tyendinaga during recent protests. They again call upon the Ontario government to, "Publicly affirm its support for the Ontario Provincial Police (OPP) "Framework for Police Preparedness for Aboriginal Critical Incidents" and commit to ensuring that officers are held accountable for any breaches of this Framework."

Amnesty International describes how, "Julian Fantino said during cross-examination in a provincial court that the Framework is "not a firm and fixed mandated way of doing business."" How much "discretion" are cops taking? They point out that Fantino's remarks threatening Shawn Brant's safety and reputation were recorded, cannot be denied and are cause for serious concern.

Ongwehonweh, watch out! We have to protect ourselves from these provocative threats by the Canadian squatter state. Carry cameras to record incidents and avoid traveling alone. We should treat this as a critical situation until we know differently. Iako'ha:kowa & MNN Staff Mohawk Nation News www.mohawknationnews.com

"It's just an exercise" Posted By Intelligencer Staff [3:30pm Wednesday November 12]

TRENTON – 8 Wing will conduct an emergency response exercise from November 13th to November 16th. The training will test the Wing's procedures in responding to a number of simulated emergency scenarios in order to maintain and improve its ability to respond to emergencies. It will involve civilian municipal and provincial organizations.

Residents in the Quinte West region may see smoke and emergency vehicles operating in the vicinity of the base at different times of day throughout the duration of the exercise. The training is forecast to have minimal impact on local residents.

For reasons of public safety, 8 Wing encourages local residents not to linger or loiter in the vicinity of the training scenarios. Ontario Provincial Police and Military Police will provide traffic control as needed. Contact Captain Mark Peebles, 8 Wing Public Affairs Officer at 613-392-2811, ext. 2041 or 613-243-6358 (mobile)

CSIS SHOPS FOR MOHAWK "STOOL PIGEONS" IN KAHNAWAKE

MNN. Nov. 11, 2008. A "stool pigeon" is an information "carrier pigeon" inside a community. They give intelligence about us to our enemies, like police, government, social scientists or academics who pretend to study us. Let's not forget those "5th column" scumbags - the band or tribal councils and "aboriginal" police forces - that have been forced on us by our enemies. We Mohawks are officially number 3 on the "terrorist" list put out by Public Safety & Emergency Preparedness Canada, after Alqaeda and the Tamil Tigers. Doesn't it look like the state is setting us set up for something?

The Canadian Secret Intelligence Service CSIS didn't want to twiddle its thumb. It's picking on us to justify its existence, or they're very bored. They are recruiting informants among our people. A CSIS woman, Nancy Demarais, called

Tewhonwasonte. He writes a column for the Kahnawake Eastern Door newspaper and is a member of the 207 Long House where some of the traditional people meet.

This CSIS Wanna-be “Mata Hari” with a bag of money wanted a secret rendez-vous with Tewhonwasonte in a restaurant outside the community. She wanted to talk about ‘Mohawk’ stuff, like the tobacco industry and especially about our sister community of Tyendinaga. It was a thinly veiled attempt to gain “strategic” information about us. In exchange Mata Hari offered to give him some “interesting” information. “I think you will have a smile on your face”, she said. Tewhonwasonte told her he would get back to her.

Tewhonwasonte called the Long House who said, in effect, “This is nation business. If she wants to talk to us, she should come to the Longhouse and tell everybody what she wants”. Tewhonwasonte called Mata Hari. She was not interested in an open and honest nation-to-nation relationship. She was probably already writing an impressive report to her superiors on how she “tricked” us into giving her “information”. She said, in effect, “Thanks, but no thanks. I’ll keep shopping”.

Why is Canada skulking around spying on us instead being above board and meeting us face-to-face? Is Canada trying to depose our government? Remember, evil is always covert and truth is for everyone. Last Friday the Eastern Door carried a front page story on this search for Mohawk “007s”.

Spies are everywhere! Even companies have spies to keep an eye on everybody. When an MNN editor worked at the Akwesasne Mohawk Casino, an executive asked her to spy on her fellow employees. She declined. Another was asked to spy on her fellow employees at the animal shelter where she volunteered. She was even asked to spy on the animals and report any “mad dogs and Englishmen”!

States commonly use assassins, spies and secret agents. They are called “rats”, “snitches”, spooks”, “confidential informants” or an “anonymous source”. Spying is the act of obtaining, delivering, transmitting, communicating or receiving information about how we defend ourselves from the onslaughts of the colonizers. The information turned over to the outsiders is used to injure us.

State espionage is usually done for military purposes. Canada is continuing its military operations and threats against us today even though military approaches to social problems are illegal according to international law. In our opinion, domestic terrorism is being done in Canada aimed at us.

How are informants cultivated? Someone can become an informant after an arrest, threat or torture. “If you spy for us, we’ll protect you” [from us], so the story goes. They send them back to blend into the target community. They may even let them conduct crimes like dealing drugs so long as they give information about the community to their handlers.

The spy known as the “asset” is directed by a “cover” or a “handler”. In between are the “cut outs” or “couriers” who deliver the messages and who may not know the asset or the handler. The CIA model is a clandestine cell system where the players don’t ever meet, except on a need-to-know basis. A “safe house” is a refuge for spies.

The cover can be stationed in the middle of the community where they recruit and supervise their agents who spy on us. They try to recruit someone who is trusted and has access to sensitive information. A spy who tries to infiltrate the target is called a "legend". They can also be long time "moles" or "defectors" who stay within the community and even have families.

Some agents could be the janitor who digs through people's trash. This gives new meaning to the term "bottom feeders". They are also known as "dumpster divers". Sometimes the lowest person in the organization is actually the head of the spy ring.

Some "stool pigeons" start out as volunteers who think they are doing the right thing for our enemies. If they develop a good rapport with the cops or outside assets or handlers, eventually they might get paid for "stooling" on us.

The spies bring in fake information to the targeted community and also put out propaganda against us to the outside. "Oh, the RCMP is gonna make a raid", just to put us on edge. The information is meant to demoralize us and make us look bad. They try to convince us that the enemy is stronger and that "it's no use" to assert our rights or the law.

The Belleville Intelligencer vilified us by publishing the list of Mohawks who are going to be charged for "protesting" the recent delivery of the mega prison that Canada and the OPP want to illegally put in the middle of Tyendinaga. Freedom of expression is not a crime! Their deliberate misinformation is meant to have a serious affect on us. We can't get a job, our kids are mistreated at school or we have difficulty going about our normal activities like shopping, going to the arena or the hospital without being hassled.

Presently spying is done in person, by GPS linked to satellites or aircraft, misleading reports, planting bugs or taps to listen to people's conversations, watching us through binoculars or following us, taking our pictures or computer hacking into emails. Espionage technology and tactics have become very sophisticated, like concealment devices, covert listening instruments, monitoring and tracking contraptions, one way voice links, surveillance and remotely activated phones. Now "Drones" UAVs can follow us and attacks can be set off by remote from Ottawa.

What motivates someone to betray their own people? It's either money, greed, blackmail, ideology, compromise, ego, threats or for "something beneficial". There are those who feel that life has cheated them. They want to get back at the society that misunderstood them and did not appreciate them. Other levers of coercion for recruitment are homosexuality, bribery, excitement, romance and sex.

Espionage is a violation of the Kaianerehkowa, the Great Law, our constitution. A spy breaking their own nation's laws can be imprisoned. Wampum 58 provides that, "any persons who submit to laws of a foreign people are alienated and forfeit their birthright and claims of the Rotino'shonni:onwe and territory".

Sorry, allies, friends and supporters! We need you and appreciate your help. However, the way things are going we have to watch for any stranger that strolls into our midst. We need to check their background, ask a lot of questions and not get suckered by fast talkers and their gifts. We have to watch out for another "pretext event" which, if in Canada, will implicate the Ongwehonwe. It's like 911 which implicated the people of the Middle East.

Our philosophy sustains our families, communities and friends. Our ties are so strong that we help each other without hesitation for no payment. We must be alert to all the tricks our enemies are using to recruit one of us to work against us. For those who have already been recruited, better start worrying. No one anywhere in the world likes a traitor in their midst.

HELP NEEDED! STATE HARASSMENT AT TYENDINAGA – SLEEP DEPRIVATION AND ARREST THREATS FOR STOPPING MEGA JAIL – Mohawk Nation Meeting set for Sun. Nov. 9

MNN. Nov. 5th, 2008. Today army helicopters and fighter jets are flying over Tyendinaga. Troops or supplies are being dropped in nearby fields. Who gave the command? This is a public disturbance and it's trespassing on Mohawk air space. Canada has no jurisdiction over us, on the ground or in the air. What makes a command legitimate? According to international law, it has to be rooted in institutions that respect the principle of human equality. The Mohawks of Tyendinaga did not call in those war planes. To make a commander's order legal, it has to be authorized according to democratic laws passed by the people concerned. We know none of this happened.

The Mohawks are objecting to illegal actions that are being taken by colonial government agents. It is not legal for a military commander to use force to circumvent the law or the will of the people. Using war planes to create a disturbance in a civilian community is clearly illegal. The military is pitting adolescent adrenaline against innocent unarmed children, elders, women and men who just want to live quietly and decently.

We've seen this kind of deliberate skuzzy “black ops” attempt to harm family life. It was used at Kanehsatake and Kahnawake in 1990, Gustafsen Lake in 1995 and Burnt Church in the Nova Scotia fishing dispute. Has war been declared against us? Is there any legal justification for this deliberate assault on civilian life? It is a total disregard for the safety and protection of children.

Sending in colonized cops who happen to be “aboriginal” just doesn't cut it either. Who are they taking their orders from? It's not the people of Tyendinaga!

Canada is targeting us for opposing the misuse of public funds to build an expensive mega police station. The colonial Band Council put up half of our money (\$1 million) for the unwanted cop shop without our consent. The Ministry of Public Safety and Security put up the other half. These millions are desperately needed to provide safe water, to address the toxic housing conditions and to stop the dangerous quarry operations. Inadequate construction caused houses to be abandoned because of mold. The water is undrinkable. It's shocking to find these conditions in southern Ontario where settler communities enjoy one of the highest standards of living in the world. International standards on clean water, adequate housing, health care and safe communities is a fundamental right we are being deliberately deprived of.

"Build-All Contractors" quarry operations lacks rigorous environmental study and safety assessments that are standard features elsewhere. Nearby houses are having water problems and collapsed wells for the first time ever. 80 per cent of the community's wells are contaminated. The nearby Quinte Mohawk School has to provide bottled water for students because the tap water is toxic. The kids can't even wash their hands because they could get sick if they put their hands in their mouth. Build-All Quarry is owned by Police Chief Maracle's brother, who is also trying to construct the new mega high tech jail.

Why is a second jail being build in the middle of Tyendinaga for jailing "outsiders", as the chief said? It's supposed to have a chopper pad on the roof! Who is this for?

On September 24th, 2008, the prefab mega jail was stopped after community members blocked it from its intended site. The people stopped another delivery attempt on Oct. 29th.

It appears that Tyendinaga Police Chief Ron Maracle is charging 30 men, women and youth who demonstrated against his super "police station" and his brother's second dangerous quarry operation. He's targeted Longhouse people who watch over corrupt Band Council operations and spending. Canada is trying to take out or neutralize anyone who defends the rights of the people.

Invitation wampums have been sent to every Mohawk community to come to Tyendinaga to take part in a council meeting on Sunday, November 9th at 10:00 am. Mediation strategies will be discussed to sit down with Canada peacefully, if possible.

As George Manual said, "I would rather leave my children with the legitimacy of the struggle than to leave them with a settlement they cannot live with".

ARE ZIONISTS BACKING A 4 PRONGED PLOT TO TRAP US IN PALESTINIAN-STYLE ENCLAVES? – Lobbying, Media Relations, Fund Raising & Government - for our land and resources

MNN. Nov. 4, 2008. Obama’s election can’t solve everything. Colonialism has left a complex and troubling legacy. We have to work together to solve it. There’s no quick fix. We have to stop the post-911 psychomania that has tried to make fascism a necessity?

Panic and fear produce strange reactions. After MNN’s November 1 story about training of Ontario police on Israeli security tactics, an MNN staff received a strange call from “Pres. and L. Bush” with no message. Another MNNer was followed by a strange “cop” looking woman and photographed. The colonial Mohawk police visited another staff member’s home with a bunch of papers in hand. Then a few choppers circled over Katenies’ house. Finally a strange wooden sculpture was left in front of the MNN publishers house. All within a 24-hour period.

In March 23, 2008, Stockwell Day, Minister of Public Safety & Emergency Preparedness, went to Israel to sign the Canada-Israel "Public Security" Agreement with Avi Dicter, Minister of Public Security of Israel. They plan to share technology, information and personnel in "border management and security; correctional services and prisons; immigration; money laundering [mostly theirs]; organized crime; terrorist financing and trafficking in persons". This makes it look like Israel is running Canada! Considering all the blood on their hands, does Israel really provide a good model for intercultural relations? U.S. Vice President Dick Cheney, Secretary of Homeland Security Michael Chertoff, Secretary of State Condoleeza Rice and other senior officials were there in “private meetings”. http://www.ps-sp.gc.ca/app_support/xml/ps_news_e.xml A week later Moshe Ronan, Chairman of the Canada Israel Committee, was with Avi Dicter in Israel. They got bombed which helped to justify the security agreement – in Canada! What kind of reasoning is this?

A few days later Ontario government announced it’s preparing to pass the “Photo ID Act” for June 2009. The new card will have a number tagged to a private data base. Some will be “flagged”, like Ongwehonwe, immigrants and “resisters of fascism”.

Day’s Public Safety and Emergency Preparedness cabal includes: Chantal “Dirty-Hands” Bernier, ADM, Community Safety and Partnerships (613) 993-4325; J. Scott “Mouthpiece” Broughton, Sr. ADM, Emergency Management & National Security (613) 991-2820; Diane “Clean-Blouse-and-Polished-Shoes” MacLaren, ADM, Policing, Law Enforcement & Interoperability (613) 990-2703; and Kristina “Who’s-Got-Her-Dirty-Finger-On-the-Button” Namiesniowski, ADM, Strategic Policy (613) 949-6435. These bureaucrats tell the Minister what to do and say and make all the “Dr. Strangelove” plans.

Michel Chossudovsky of Global Research wrote in April 2, 2008, that Public Safety Canada works closely with the Canada Border Services Agency (CBSA), The Canadian Security Intelligence Service (CSIS), Correctional Service Canada (CSC) and the Royal Canadian Mounted Police (RCMP) – who all work together trying to victimize the Ongwehonwe. [See Links #1 at end] Are they preparing to turn our communities into refugee camps like they’ve done in Palestine? The Ontario Mission

went to Israel to study how to surround people with huge prefab walls, armed guards, electrical fences, high tech surveillance, super militarized checkpoints, to burn down crops and keep people from going to jobs, hospitals and schools often leading to death.

In 2005 nearly 35 Chiefs of Police, mostly from Ontario's cities near Ongwehonwe communities, went to Israel to explore Israeli police procedures. The trip was initiated by Bernie Farber, and paid by the Canadian Jewish Congress, United Jewish Appeal Federation of Greater Toronto, Ontario Association of Chiefs of Police, Ontario Ministry of the Solicitor General (Monte Kwinter), the Israeli government, the police service boards, Canada Israel Committee and U.S. Department of Homeland Security through "Security Solutions International". It looks like the U.S. has been hiding its duplicity by giving money to Security Solutions who then turn it over to the sponsoring organizations. They're backs are still sore from patting themselves on how well they pulled this one over on the Canadian retardants.

Is getting control over policing and prisons part of the four prongs of the Zionist mission? The four cornerstones in Ontario are Bernie Faber, the media man; Monte Kwinter, the longtime Toronto MPP; Morris Zbar, the money manager for the United Jewish Appeal; and Eric Maldoff, Heenan Blaikie Montreal, the lobbyist with the Canada-Israel Committee. We know Eric and his style at Kanesatake and other Mohawk communities. He knows how to stir up trouble for us. Then he hides under a rock until the coast is clear, and gets well paid for it. [See link #2]

Susan Howard-Azzeh made a report on the complaint that was filed by the Solidarity for Palestinian Human Rights Against Racism Canada to the Premier of Ontario Dalton "Chicken-Teeth" McGuinty, the Hamilton, Toronto, York Regional, Ottawa, Windsor police forces, Ontario Registered Lobbyists and the OPP.

Farber of the Canadian Jewish Congress, and his gang disrupted the September 21, 2005 public meeting to prevent information about Israeli police brutality against the Palestinians from being heard publicly. [See #3 Link].

Farber stood against a wall where he had a clear line of site with Police Services Board Chair, Bernie "Scaredy-Cat" Morelli. Farber gave signals to Morelli to "refrain" speakers from talking about "politics". A witness reported that his crowd continually disrupted the speakers with shouting and intimidation. During a slide presentation of photos of brutal Israeli police methods, his cohorts screamed, bellowed and stamped their feet like they were in a union hall meeting. A screeching woman stood up and blocked the images. Morelli cancelled the meeting, which might have been the plan. [See Link #4]

Bernie "Media Man" Farber likes to charge his critics with "anti-semitism". These kinds of guys have all the money it takes to use Canadian courts as a tool to bully people and prevent legitimate criticism. Just by publishing this piece today, we are putting ourselves at risk. Are they going to try to "Ahenakew" us? Farber mercilessly attacked Indigenous elder, David Ahenakew, for privately muttering something critical about the Israelis. Meanwhile the corporate media has brushed aside complaints about defamatory statements made, on the record, to the press by Dick Pound in his official capacity as a member of the International Olympic Committee and the board of McGill University.

Monte "The Politician" Kwinter, a long time Toronto MPP seems to be the man who carries the Zionist message to the legislature.

Eric "The Lobbyist" Maldoff of the Canada Israeli Committee seems to be pushing all things Israeli.

Morris "The Money Man" Zbar of the United Jewish Appeal was Deputy Minister of Correctional Services. He sits on the Correctional Services Canada "transformation team" involved in setting up these Ongwehonwe "porta-prisons", which can be quickly set up, dismantled and moved before anyone can complain about it.

The Canada Israeli Committee Board has some high flyers. Many are in "real estate" development on our territory that we never ceded. CIC has offices in Ottawa, Toronto, Montreal, Vancouver and Israel. [See Link #6]. See who CIC Board members are at the end of this article.

What do Israeli checkpoints have to do with Ontario lives? Unless that is what is being planned for us. If we don't turn this around we may be left with no control our lives with devastating consequences, like no access to jobs, schools or hospitals and no way to defend ourselves.

Canada Israeli Committee. Many of the members of the board are real estate tycoons who wheel and deal on our unsundered Ongwehonwe territories. CIC is a well-financed lobby group. They seem to like to brag, exaggerate and out-do each other. It looks like the kind of thing people do when they want to pad up their resumes. They set up organizations and then put themselves and each other on them:

Moshe Ronen, World Jewish Congress, Skylink Aviation, First Capital Realty Corporation with shopping centre portfolios; mosheronen@cicweb.ca ;

Jason Caron, Heenan Blaikie LLP Montreal, Quebec-Israel Committee;

jasoncaron@cicweb.ca ;

David Kroft, Fillmore Riley LLP, Manitoba; davidkroft@cicweb.ca ;

Marc Gold, Maxwell Cummings & Sons Holdings Limited, Professor McGill University. marcgold@cicweb.ca , Canada-Israel Committee, CJA, United Israel Appeals Federations Canada, Jewish Agency for Israel.

Ken Boessenkool, Hill & Knowlton Canada, a lobby for the military industry, advisor and strategist to Stephen Harper, C.D. Howe Institute “think tank”;

kenboessenkool@cicweb.ca ;

Father Raymond J. de Souza, Roman Catholic priest, Kingston, Ontario, columnist for National Post, Vatican press corps, chaplain, Queen's University, itching to become a bishop or cardinal. [When are they going to appoint a Jewish Pope?];

rjdesouza@sympatico.ca [See Link #5];

David Kroft, Fillmore Riley LLP, commercial litigation and insolvency law. Jewish Federation of Winnipeg, Liberal Party of Canada;

Michael Diamond, business consultant and investor;

Dr. Michael Elterman, clinical psychologist specializing in forensic evaluations throughout entire Pacific North West [where there are lots of Indigenous communities], Canadian Jewish Congress' Pacific;

Professor Karen Eltis, Hebrew University Jerusalem and Columbia University School of Law;

Barbara Farber, CEO Leikin Group, Ottawa-based real estate. Ottawa Jewish Community;

Len Farber, Ogilvy Renault, tax policy;

Paul Forseth, former MP, Canada Israel Friendship Group in Parliament;

Rob Gasner, Toronto, Re/max Realtron Realty Inc., residential and commercial re-sales. Canadian Jewish Congress – Ontario;

Brenda Gewurz, Proment Corporation, a residential real-estate company in Montreal. Hebrew Academy. CJA, Hillel, Jewish Community Foundation. Husband is a real-estate developer;

Paul Goldman, corporate and securities law. Goodmans LLP. BC Securities Commission. Writes on interjurisdictional and cross-border issues;

Cary Green, Verdicroc develops properties for residential, commercial, industrial and mixed-use projects [on Ongwehone land].

Alex Halpern, Canadian Federation of Jewish Students (CFJS) at McGill, United Israel Appeal Federations Canada (UIAFC);

Donna Holbrook, International Christian Embassy Jerusalem [ICEJ], AMEN (Anti-Semitism Must End Now), calls herself a Christian Zionist.

Claude Lajeunesse, President Aerospace Industries Association of Canada (AIAC), TD Meloche Monnex and Atomic Energy of Canada Limited (AECL). Canadian Liver

Foundation to take care of those who get sick from nuclear radiation or drinking too much?;

Eric Maldoff, Heenan Blaikie Montreal, land claims negotiator, general destroyer of Ongwehono who foments trouble for us through his PMO and government connections;

Brian Morris, who works at the "apple tree" Morris & Morris L.L.P, B'nai Brith Canada;

Berl Nadler, McGill & Harvard Law Schools. Davies Ward Phillips & Vineberg LLP. UJA Toronto.

Joe Nadler, Reform Movement for Progressive Judaism. –

Nancy "meddlesome" Rosenfeld, runs Andrea and Charles Bronfman Philanthropies. Stephen R. Bronfman Foundation. Samuel and Saidye Bronfman Family Foundation. Special Advisor to Montreal Mayor Pierre Bourque [as any Montrealer will tell you, she must have given him some lousy advice]. Montreal YM-YWHA where she works out. Trans Canada Trail where she wants to jog.

Carol Ryder, White Iron Group of Companies.

Lisa Samson, Ottawa. Strategy Corp, public affairs and government relations. Key member of Conservative Party "war room" [war against us?] Frequent media commentator and blabbermouth for Conservatives;

Mark Waldman, Tacfast Systems International, global flooring [we all need something to stand on], Canadian Jewish Political Affairs Committee (CJPAC), Access Middle East and United Way. "Friends of America" to counter anti-American sentiment in Canada. [Has his work cut out for him]. Advisor to CIJA and Friends of Simon Wiesenthal Centre that promotes history of holocaust guilt and Zionism.

Hymie Weinstein Q.C., Myers Weinberg LLP. Lectures Bar Admission Course, Winnipeg Police Academy, and National Criminal Law Program of Federation of Law Societies.

CIC Honorary Board

Brent Belzberg, Toronto. Torquest Partners Inc. Manages and mismanages over \$700M private equity funds. CIBC director. Four Seasons Hotels. DayMen Lowepro. Canadian Council for Israel & Jewish Advocacy, "CIJA"; Harrowston Corp. (formerly First City Financial Corp.); First City Capital Markets; Tory, Tory, Deslauriers & Binnington.

Joseph Gabay, Sepharade Francophone, Hillel of the Federation Sepharadie Canadienne and Québec. He got some kind of Sepharade award. Teaches math at CEGEP Rosemont. Married to Dolly [is that the cloned sheep?];

Hon. E. Leo Kolber, P.C., Claridge Inc. CEMP Investments, trusts set up by the late Sam Bronfman. Fairview Corporation real estate. Cadillac Fairview Corporation. Senate of Canada [til he got too old and his snoring kept the other senators awake]. Revenue Committee of the Liberal Party of Canada [which could be one of the reasons they're now broke].

Some Ontario politicians.

WHEN COPS BECOME THUGS – THE USE OF “NON LETHAL” WEAPONS & “PAIN COMPLIANCE” ATTACKS ON INDIGENOUS PEOPLE

MNN. Nov. 1, 2008. We Ongwehonwe need to know about this new weaponry and martial law training that cops are using on us. We're unarmed. How do we defend ourselves? The military is getting more involved in civil matters. The U.S. Marines are in the forefront of developing, testing and using so-called “non-lethal weapons” NLW for what is being called “domestic crowd control”, or more accurately, “fascism”. Here are some of the new weapons being used by the state's agents to attack the people they are supposed to protect:

1) “Directed Energy Weapons” are used against people and electronic equipment. “Electromagnetic Energy” is directed in a beam or pulse. The transmitter can be mounted on a vehicle that looks like a large speaker box to disable electronic equipment, disorient and disable people. It may cause organ damage and, of course, death. It has no bullet. So it's harder to trace who the killers are.

”High Powered Microwave Weapon” is an electromagnetic pulse that can burn skin in an instant. It disables equipment. In April 2007, there was an accident with the “Active Denial System 1”, which is a “pain ray” or “death ray” gun, during a trial at the Moody Air Force Base in Georgia. It was left on and somebody was badly burned. This gun is being used in Iraq, Somalia, Palestine and Afghanistan.

V2K is electromagnetic energy for “mind control” to create mass murderers such as soldiers. [See Link #1] These include (1) a neuro-electromagnetic device that transmits microwave radiation sound pulses into a person's skull; and (2) a silent sound device that transmits subliminal voice or audio messages into the person's skull. A sign is that the perpetrator of mass killings appears apathetic, calm, even zombie-like. This is how “Manchurian Candidates” can be created.

2) A “Stun Grenade” is an acoustic weapon with explosives meant to cause internal damage, disorient, incapacitate and kill people.

3) For “crowd control” people are hit with various “Projectiles” like rubber bullets and “airburst munitions”.

4) There are “Combination Weapons” that Flash, Bang and Stink to temporarily disorient and stop people from resisting.

- 5) "Mobility Denial Equipment" stop vehicles and people like entanglement nets, slippery foam and anti traction material.
- 6) "Weaponized UAVs" [Unmanned Aerial Vehicles] or Drones have been downsized costing as little as \$3,000. These mini UAVs can be hand launched and remotely operated by rookie cops, teenaged soldiers or raving lunatics.
- 7) "Electro-shock stun" equipment has been abused by cops who have harmed or killed those with heart disease, neurological disorders or under the influence of drugs." [See Link #2]
- 8) Commonly used is the "eye-in-the-sky" satellite camera to follow our every move and to reign havoc by pushing a button in Ottawa or Washington. These are connected to GPSs in cars. The microwave towers monitor cell phones, computers and ID chips like the enhanced drivers licenses, which are all connected to the eye-in-the-sky.
- 9) Security Solutions SS of Colorado Springs Colorado sells "non-lethal" weapons online to the public like stun guns, pepper sprays, tasers and personal alarms which they claim "have been used effectively for years by military and police units world wide". They sell a Mace Alarm & Flashlight, Crossbows, Throwing Stars (?), Telescopic Steel Batons, High Velocity Sling Shots, Handcuffs, Kubotans (?), Blowguns, Paintball Guns, surveillance cameras, self defense training DVD's and "diversion safes" that look like a can of pop or beer or a jar of peanut butter to hide money or whatever. SS owner, Jack Krohn, is a motivational writer on how every "good citizen" should have their own arsenal. [See Link #3] Think that things are bad now? Is worse being planned for us? Somebody wants to make loads of money and get control based on mass death, big time!

Read this! SSs 700,000 volt "Stun Gun" with a designer holster, even a pink one, costs \$69.95. A 950,000 volt "Pretender Stun Gun" that looks like a cell phone costs \$125! The stun gun won't work til you go online and get it activated by the manufacturer. Other stun guns have catchy names like "Stun Monster", "Hot Shot Stun Gun" and "Knuckle Blaster Stun Gun". These deviant nuts like their deadly toys! We are getting the impression that the government is the biggest "terrorist" of all.

SS sells a gun with an alarm that crackles with electricity: "Simply touching .. someone... with a stun gun for three to five seconds delivers a high voltage shock caus[ing] loss of balance and muscle control, confusion, and disorientation bringing him to his knees and incapacitating him." [We know someone who was walking down the street and got taken down. He came to hours later lying in the gutter.] The latest taser uses "Electro-Muscular Disruption" (EMD) technology that can incapacitate faster than a 9mm hand gun. It shoots out 2 darts attached to 15 feet of wire. 50,000 volts travel over the wires and over-rides the central nervous system providing incredible takedown power." This is all available on the internet.

10) Security Solutions International of Florida SSI is not related to SS. SSI is run by a group of SWAT team experts, snipers and ex-military. They prepare cops for "martial law". One of SSI's trainers is also the head of the "Police Training Institute", of the University of Illinois-Champaign/Urbana. Police are trained for SWAT "special weapons and tactics".***

The U.S. Department of Homeland Security DHS sponsored training in Israel to teach Canadian cops how the Israelis 'control' the Palestinians. Another session starts this

month. Ontario Provincial Police Commissioner Julian “Linguini Legs” Fantino took the course in 2005. He went with 35 Ontario police chiefs, various bureaucrats, politicians and heads of Jewish organizations on this foray called the “Ontario Police Mission to Israel”. Morris Zbar of the United Jewish Appeal is involved in “modernizing” Ontario prisons. That is, bringing them up to “Abu Graib” standards? See the list at the end of this article of the “wannabe robo cops”. Notice that most of these neo-fascists ply their trade near Ongwehonwe communities.

A year later in early 2006, Bernie Farber of the Canadian Jewish Congress took another bunch to Israel. This time from the Assembly of First Nations AFN, including Phil “Tonto” Fontaine and Beverley “Auntie Tom” Jacobs, President of the Native Women’s Association of Canada, and others. <http://www.afn.ca/article.asp?id=2276>

We Ongwehonwe are targeted. We need to know about these tactics and weapons, how to defend ourselves and who’s doing it to us.

Since Indian Affairs has a fiduciary responsibility to protect us according to their own laws, they should provide every Ongwehonwe man, woman and child with specialized armor to protect us from their new gadgets and the equipment we need to defend ourselves from their colonial liquidators who are always attacking us:

As well, we need helmets, flack jackets, gas masks, lemon water for clearing pepper sprayed eyes, hockey pads to protect our bodies from beatings, scramblers so that our phones and computers will work, flares to inform our people when we get “disappeared” because we aren’t allowed one call, a list of their racist taunts we need to get used to, wide copper bracelets to protect our wrists from over tight handcuffs, descriptions of deadly stress holds, cell phones, camcorders, chastity belts to deter rapes and cavity searches at borders and police stations, special protection for babies and the unborn from birth defects and, to survive interrogation, we need to learn how to sleep with our eyes open while standing, high nutrition power bars, isolation songs to keep us company in the cells like the “AIM Song”.

Better yet, we need weapons that can inject a dose of common sense and sanity into raving maniacs that pretend they’re “just following orders” of their demented masters. All states have to stop funding weapons and tactics designed to breach the right to life. If they put even one-tenth of this energy and expense into peaceful co-existence, we’d all be way further ahead.

Ontario Police Mission to Israel: Gary Smith, Deputy Chief, Windsor; Chief David Nicholas Halcovitch, Hanover; Chief Stephen Tanner, Belleville; Deputy Chief Charles Mercier, Durham Regional; Deputy Chief Lawrence Hill, Ottawa; Chief B. Wesley Luloff, Nishnawbe Aski; Chief Paul Cook, North Bay; Commissioner Gwenneth Marie Boniface, OPP; Chief Ian Davidson, Greater Sudbury; Deputy Chief Robert Kates, Sault Ste. Marie; Chief Shayne MacKinnon, Dryden; Chief Armand LaBarge, York Regional; Hon. Monte Kwinter, Ministry, Community Safety & Correctional Services; OPP Deputy Commissioner Maurice Pilon; Director Government Relations Joe Couto, Ontario Assn. of Police Chiefs OACP; Chief Paul David Hamelin, Midland, Pres. OACP; Chief Robert Herman, Thunder Bay; Nat. CEO Canadian Jewish Congress CJC Bernie M. Farber; Chair CJC Ont. Joel Richler; Inspector Merle Foster, Belleville Police; United Jewish Appeal Toronto Morris Zbar; Chief Brian John Mullan, Hamilton; Chief William Rose, Michipicoten Wawa; Staff Supt. William Blair, Toronto Police Service; Deputy Chief Dennis James Poole, Chatham-Kent; Director Rudy Gheysen, Ontario Police College; Deputy Chief Frank Elsner, Owen Sound; Commissioner Emergency Management James Young,

Toronto; OPP Commissioner Julian Fantino; Premier McGuinty's Office Andrew Hilton; Wilma Helen Kwinter [somebody's "Desperate Housewife"].

All these cop shops are recruiting.

Why did the U.S. Department of Homeland Security pay for this? What interest do they have in places like Wawa and Belleville? Canada is being set up to become a "hell hole" of violence controlled by deadly button pushers. What do they do after a massacre?

Susan Weinberger of "Danger Room" is writing more on microwave weapons and military secrecy. <http://blog.wired.com/defense/2008/10/pain-ray-accide.html>
