

MOHAWKS, WATCH OUT FOR MARTIAL LAW

February 19th, 2010

MNN. Feb. 17, 2010. The Indian Act is Canada's policy. The goal is assimilation until there are no Indigenous left. When we object to this, we are called racist.

Who stands to gain from this forced removal of non-natives from Kahnawake by the band council, followed by the forced removal of us?

These evictions are initiated by the government. Why is the media blaming Indigenous for creating the Indian Act and calling us racist?

Certain colonial political parties are making major deals with the US. Quebec has sold our water rights to the US under NAFTA. To ship our water south they must go through Mohawk communities. We will oppose this.

Ontario-Quebec-Canada-New York State-WashingtonDC are trying to cut off Mohawk initiatives, economic self-sufficiency and the viability of our communities. They are threatening people who do business with us.

The band council and Canadian government launched a smear and disinformation campaign to turn off the public. The band council is alienated from the Great Law. They are getting the public mad at us. Then the military can come in and occupy us. The public is being conditioned to think we had it coming!

In 1973, 2,600 non-natives were illegally living here. The people wanted them to leave. The traditional Longhouse passed it in council and carried it out. The band council opposed it and brought in the Quebec Provincial Police to attack us. We defended ourselves.

These outsiders came in through the Indian Act, not to seek shelter under the Great Law. Racism is being used to twist the issue.

In the 1980s the People passed the Mohawk Membership Law. Non-natives married to Mohawks could not live here. The band council did not stop them until now.

We refuse to be caught in the middle.

Starving Europeans arrived here. We took care of them, fed them, helped them raise their children and learn to survive.

Adolph Hitler studied the Canada-US-British genocide model that killed over 100 million of us in the Western Hemisphere. After WWII, South Africa patterned Apartheid on the Indian Act. Ottawa is looking at the Australian genocide strategy.

The newcomers occupy most of our homelands though all of Great Turtle Island is ours. We have a duty to maintain our territory for the future generations of our people.

We see these colonists every day. We deserve a refuge from them.

We don't impose our ways, laws or beliefs on them. We keep our ways in our canoe. They keep throwing their garbage off their ship into our canoe and polluting our water.

The band council can't use Kaianerehkowa/Great Law to back up their argument. They are putting one foot in the canoe and the other in the ship. They want benefits from both without respecting their responsibility to their people.

Now they've painted themselves into a corner. The Longhouse will not be sucked into this. It's like the bully picking a fight, pulling back and getting his brother to take the beating. The band council always does this to the Longhouse.

Just because the Europeans washed up on our shores doesn't mean all these squatters come under our shelter. We have to fulfill our responsibility to our children. The women must protect the blood lines. The men must support the women and children.

A Mohawk elder had the same dream several times. She saw men suddenly arriving in Kahnawake dressed in cream-colored naval-like apparel wearing Nazi German-like helmets. They arrived by water and surrounded us. We have not interpreted what this means.

WATCH FOR DESPERATE PSYCHOPATHS

January 12th, 2010

Okanada Video

MNN. Dec. 26, 2009. The psychopath is aggressive, perverted, amoral, unfeeling, and without remorse. They think the masses have no rights. Only might makes right. To get to the top of the colonial hierarchy requires a psychopath or someone agreeing to become one. White collar psychotics steal identities, use aliases, constantly lie, defraud and con for gain or pleasure.

Clinton Callahan wrote BEWARE THE PSYCHOPATH, MY SON, a revealing report on how evil is used for political purposes. He asks why there is so much war, suffering and injustice. All civilizations are systems of slavery and mass murder created by psychopaths!

Over the past 50 years psychopaths tried to gain absolute control over government by using dumb puppets to run their systems. Band and tribal council systems in Indigenous communities are an example. These bodies operate as self-serving, calculating, amoral, soulless and unethical bodies for their masters with impunity. Innocent individuals can become corrupt when they become part of this inherently evil syndicate.

US, Canadian church and state tried to kill us off to steal our resources and property. They even want us to bow down and celebrate their brutality so we can enjoy our servitude.

Psychopaths recognize each other. They think they have a right to our possessions and to exercise power over us. Divide and conquer methods are used to set us against each other. This doesn't work because open debate between our people is necessary no matter how diverse and loud. We eventually come to an understanding on how we will proceed.

Hierarchies need victims to keep them in business. They become obsolete should we become socially, economically and politically self-sufficient. Our survival and health depends on exercising leaderless psychological diversity. The colonial system labels those deviating from their control as terrorists who must be eliminated.

Fortunately, Indigenous psyches have not been in the clutches of these psychopaths long enough to disconnect us from our inherent thinking and feeling patterns that help us survive.

Conscience is normal in a human being. Psychopaths appear normal but are genetically created by an ancient disconnection between the instinct and thinking parts of the brain. They are conscienceless and cannot feel emotions. They are intellectually able to create fake emotional responses to fool us. They can be charming and articulate. They mimic normalcy while cold bloodedly manipulating the masses.

Psychopaths created the hierarchical systems to reflect their need for domination. Why do we tolerate psychopaths? They make the grazing sheep fear being without a slave master to run the hierarchies, as if there is no other way.

The CIA drug runners, killers, international banksters, corrupt military contractors, gung ho generals, corporate predators, political enablers, brainwashers and mind rapists are seeking the final desperate power grab. The certified psychopaths in intel and secret societies are running scared. They are losing control of the spread of knowledge. As people learn more, their power grows more threatened and they become more desperate.

Two things can bring down a psychopath: a bigger psychopath; and non-violent non-compliance no matter the consequences. To grind down the system, soldiers can refuse to fight, government workers, corporate drones and prison guards can refuse to work and doctors can refuse to treat psychopaths.

What is the psychopaths greatest fear? Being caught! What can destroy a psychopath? The Kaianereh'ko:wa/Great Law of Peace.

QUEBEC BRIDGE DISASTER AT KAHNAWAKE? Urgent Action Needed!

November 28th, 2009

MNN. Nov. 15, 2009. The Mercier Bridge is 1.4 kilometers long, spans the St. Lawrence River and Seaway between Montreal and Kahnawake on the south shore. It was built in 1932 beside the CPR Bridge which was built in 1885. www.pjcci.ca

Mohawk Nation, Quebec and Canada contracted the Mohawks to strengthen the steel structure and replace the reinforced concrete bridge deck of three access ramps on Mohawk Territory. It is the largest bridge repair project in Canadian history. Canada is paying \$57 million and Quebec \$9 million. Over 1000 direct and indirect jobs are being created per year. Work started on April 25, 2008.

The Montreal Iron Workers Union Local 711 is trying to kick the Mohawks out because they don't have the CCQ cards. Commission de la construction du Quebec cards are issued by the government which controls the union.

CCQ rules and regulations violate the Union's international charter. Quebec is the only place on Great Turtle Island where a union card is worthless.

Local 711 gives Mohawks union books but tells them to work in the US or other provinces. Retired ironworkers say 711 doesn't let those who have books from locals 40 or 361 from NY City work in Quebec or Kahnawake, even though they are considered to be highly skilled ironworkers.

Wayne Rice, is head of the local Mohawk Bridge Consortium, a group of contractors in Kahnawake. He had a meeting in August 2009 with Pierre Desroche, the 711 business agent.

711 is trying to invade our sovereignty by disqualifying the Mohawks that don't have CCQ cards. Desroche urged Rice to send his workers without cards home and hire non-natives. This would put 80 Mohawks out of work.

Jacques Dubois, President of the union's District Council of Eastern Canada, sent letters to certain men threatening loss of their union books and never working again if they work on the Mercier Bridge project. 9 men quit. 8 had cards and one was promised one. None have been provided jobs or a card.

Rice is trying to protect the men, women and the community now and in the future from jurisdictional encroachment by foreigners. Rice sees other trades in the community being forced under Quebec's control so that jobs will go to non-natives and taxes can be extorted from us.

Quebec is getting caught in a web of lawlessness. Rice is apparently writing to Joseph Hunt, General President, of the AFL-CIO Iron Workers International Union in Washington DC about these racist practices. He is looking into setting up a local in Kahnawake.

MBC continues to put Mohawk workers on the bridge. Union members elsewhere say it is highly unusual to improperly deny jobs and should be investigated at the highest level.

The Mohawk Nation is inherently sovereign. Kahnawake is on unsundered Haudenosaunee land. In 1974 Jean Chretien, the Minister of Indian Affairs, illegally signed an Order in Council declaring it a reserve. He violated internationally recognized standards for respecting political, economic and human rights as set out in the International Covenant on Civil and Political Rights, UN Convention on Economic, Social and Cultural Rights and other international legal instruments. UN General Assembly Resolution 1541 [XV] requires the informed consent of the people before they are included in another state. We have never legally or voluntarily become part of Canada.

The Mohawks' position supported by international law is that when anyone comes into our sovereign territory, they must abide by our laws and can't force their authority on us.

711 recently filed an injunction in Montreal Superior Court to enforce their laws in Kahnawake. As we are a nation, this issue belongs in the International Court.

Supporting this position is the recent ruling in 2008 by the FCC Federal Court of Canada. A Mohawk woman was beaten by Canada Border Services Agents at Akwesasne. She requested an investigation. FCC ruled that the victim must pay for the Crown's costs because she lives in Kahnawake and is not a resident of Canada. FCC declared that Kahnawake is sovereign and not in Canada.

Based on this ruling, in June 2009 the Maliseet of Tobique in New Brunswick took over and kept the dam and electric generating plant that was built in the middle of their territory.

Dubois tried to unfairly tarnish the reputation of the Mohawks. He prejudiced the Mohawk Bridge Consortium and the workers on the Mercier Bridge Project by stating they are not qualified to do the work and it is a catastrophe.

On August 29, 1907, we lost most of our ironworkers when the Quebec [City] Bridge collapsed into the St. Lawrence River. We later learned this was due to deficiencies in material and construction by the contractors. We don't want another bridge disaster, especially since we cross it every day. We are a nation and must be legally dealt with as such.
