ONIGONRA "THINK TANK" THROWS LIGHT ON MAJOR MYSTERIES:  
WHAT CAUSES "ABORIGINAL POVERTY"?  
WHY ARE JAILS FULL OF "ABORIGINALS"?  
WHY DON'T "ABORIGINAL" PEOPLE WANT TO BE COPS?  
ANSWERS PANIC CANADIAN "INTELLIGENCE" INDUSTRY!**

MNN exclusive by Ieriwa'on:ni & MNN Staff 25 July 2008

Canada has serious problems. Countless Royal Commissions have been struck. Millions have been spent. The answer they want is how can the colonial government and its agencies control Indigenous people until every last bit of our land and resources are stolen from us. The Onigonra Think Tank answers some nagging questions – FREE OF CHARGE!!

**1. WHAT CAUSES "ABORIGINAL POVERTY"?**

Indigenous poverty is deliberately created to force us owners of every square inch of land and resources onto the begging line. "Poverty" is "not having the necessities of life". Before the colonists arrived there was no "aboriginal poverty". Our ancestors survived and thrived though two ice ages or more. The first European arrivals marveled at how healthy we were and how long we lived. They had to put a stop to it so they could rob us blind. We brought food and medicines to help these pitiful scurvy creatures who stumbled to our shores and could not look after themselves.

These trespassers were physically and mentally ill. They responded to our generosity by killing us, vandalism of our resources and damaging our environment. They refused to leave their weapons on their ships. They shot cannon at us, tried to turn us into slaves and serfs and paid rewards for our scalps. They grabbed everything in sight, including our people.

The surviving Onkwehonwe were left without the necessities of life and confined to tiny "reserves" without viable economies or even clean drinking water.

**CONCLUSION:** "Aboriginal poverty" was and continues to be created by colonial theft, vandalism and greed.

**SOLUTION:** The colonists are mentally ill. How do they overcome their inhibitions against sharing and respect for others? By giving everything they stole back to us and repairing the environment.

**2. WHY ARE SO MANY "ABORIGINAL PEOPLE" IN JAIL?**

Jailing us has been INCREASING since the Royal Commission on Aboriginal

Peoples. They wanted to figure out how to accelerate this. The RCMP, Canadian bureaucrats and university gnomes are paying consultants millions of dollars to find ways to get more Indians to be guilty of more "crimes".

In 1877 a penitentiary was built in Prince Albert 28 years before Saskatchewan entered Canadian Confederation and 2 years after the Canadian war against Louis Riel and the Prairie Nations.

FACT: Canada thought it needed its own "Abu Graib on the Prairies" to try to kill and scare Indigenous people into submission. All over Turtle Island Onkwehonwe were convicted of trespassing and other colonial crimes such as hunting and fishing or sharing wealth through traditional Potlatch ceremonies. Inmates were flogged, tortured, killed or imprisoned. Famous spokesmen like Poundmaker and Big Bear got sick and died in jail.

CONCLUSION: Jails were and continue to be used to enforce the colonists' goal to trespass and steal the lands of our ancestors and the coming generations. The trespassers must respect the Two Row Wampum and Onkwehonwe sovereignty and jurisdictions.

It's all about money. Indian Affairs has a monopoly on "aboriginal" prisoners it works at creating. When a judge sentences an Indian, the province jails them and gets money for them from the feds. It's the "Go-Directly-to-Jail-Do-Not-Pass-Go-and-We'll-Collect-\$200" program. When provincial citizens go to jail, the province has to pay out of its own budget. To make money live "Indians" are needed for long sentences without parole to make it profitable. Otherwise jails would have to close down.

The Canadian monsters are helping their friends get rich by selling off the jail business to an American franchise. Can't you see it? "McJails R US". One is already being built in the middle of Tyendinega where they see a lot of young Mohawk people they can trap.

The same old spread sheets are being recycled from the residential schools concentration camps pogrom that killed off half of our children. The ghost of its engineer, Duncan Campbell Scott, hovers from his rat hole. His motto would be it's "good accounting practice" to keep the "cells" full". If they can't get enough "Injuns", they create new crimes, like designating all Mohawks as "insurgents", "terrorists" and "global risks".

Instead of turning old jails into mental hospitals for ousted politicians and jack-booted police chiefs, the colonizers are building new ones known as "lifer prisons". This gives them an excuse to stint on health care, education and infrastructure...like drinking water.

THE SOLUTION? Take away the profit motive for imprisoning "aboriginal people" and the need for jails will disappear.

### **3. WHY DON'T "ABORIGINAL" PEOPLE WANT TO BE COPS?**

In reality we do NOT have an internal policing problem. Our problem is the "foreigners" who keep trying to entrap us, force themselves on us and take everything we have.

Colonial police and jails are not part of our culture. In 1991 the federal

government announced a policy "to deliver special police services that respect aboriginal culture" into jail houses to keep us there. They set up beads and feathers workshops and put in sweat lodges.

Onkwehonwe culture is based on the TWO ROW WAMPUM principle:

1) We are all equal. We all have a voice. We respect each other's right to self-determination, sovereignty and jurisdictions. Our social relations are alliances and we agree to help and defend each other. We are not British subjects or Canadian citizens. This designation was forced on us without our knowledge or consent, violating international law.

2) We base our decisions on consensus. If there were problems, people got together and figured out how to deal with it.

Canada is a trespasser and plunderer state. It rides rough shod over Onkwehonwe jurisdictions. It uses foreign police, courts and military to steal all our resources.

According to government policy, good jobs are meant to be hard to find in an Onkwehonwe community. The only work available is for the colonizing agencies to hire our people to enforce foreign laws and control over our lives. Today pawns willing to be part of the "death squads" are earning almost as much as doctors, well over \$100,000 a year!! They are more than willing to sell out the principles our ancestors fought so hard to defend.

In 1996, 77% of police officers invading our communities were "aboriginal". Now it's dropped to 55%. Decent, honest, family-loving Onkwehonwe won't herd their own people into the ovens no matter how big the pay is.

FACT: "Aboriginal Police" are amongst us to force colonial law down our throats on behalf of their foreign masters.

FACT: Real Onkwehonwe don't want to assault and betray their people.

There is no mystery. It looks more and more like the colonists have to change or die. The colonists must leave Onowaregeh/Turtle Island, go and learn a better way to live and let us Indigenous peoples re-establish the original natural life affirming society.

## MNN OPP Commish Fantino uses 'mob tactics' on Mohawk Shawn Brant

OPP Commissioner Julian Fantino uses "mob tactics" on Shawn Brant and the  
Mohawks

MNN. July 20, 2008. The death penalty has been abolished in Canada. Julian  
Fantino has been trying to do an end run around this. Last June 29th 2007  
Fantino pronounced an extra judicial death sentence on Mohawk Shawn Brant of  
Tyendinaga. He has used the police forces to threaten Indigenous people. He is  
trying to provoke us to commit violent acts in self-defense to give him the  
excuse he wants to kill us.

According to the CBC News [7/19/08 7:00PM] the OPP Commissioner should be  
investigated for the comments he made under oath at the preliminary inquiry.  
Peter Rosenthal, who represents Mohawk demonstrator Shawn Brant, said on  
Saturday July 19th that he is calling for the government to investigate  
Commissioner Fantino's comments to Brant on the phone during the aboriginal  
day of action.

Newly released court documents show the OPP were just minutes away from  
moving in to forcibly remove Indigenous demonstrators who did not block the  
road or close Highway 401 at protest sites in eastern Ontario. In wiretap  
transcripts Fantino threatened Brant, "Your whole world's going to come crashing  
down". Fantino also said he was going to "do everything I can within your  
community and everywhere to destroy your reputation".

The tap on Brant's cell phone was made without obtaining a court order. The  
Criminal Code allows for wiretaps without a court order in extreme situations.  
There was plenty of advance notice given about the day of action last year.  
Gangster-like Commissioner Fantino admitted that ... there were snipers ready at  
this time and he was close to moving in.

Fantino's "Mafioso" tactics could lead to another Ipperwash given the high  
number of colonial violations against Indigenous rights. We will continue to  
protect our people, our land and our possessions. Fantino is dangerous. He will  
not let the law stop him from trying to incriminate us.

Fantino's actions contradicts the OPP's guidelines for dealing with Indigenous  
people as recommended in the wake of the OPP killing of Dudley George at  
Ipperwash Provincial Park in 1995.

Fantino quickly headed out of town. Ontario Premier Dalton McGuinty stands by  
his "mobster" commissioner.

MNN calls for the immediate resignation of Fantino.

## MNN Beware of Cops in Sheeps Clothing

INDIGENOUS AND SUPPORTERS, BEWARE OF COPS IN SHEEPS CLOTHING – MNN. July 20, 2008. Ontario Provincial Police Commissioner Julian Fantino's fascist actions against Indigenous people are not new. His illegal dirty tricks to trap Mohawks and Shawn Brant in particular may have been developed and practiced in cop training school. It's an old pattern. Cops are basically well-paid thugs. Looking at the police training videos, we see police being trained to instigate violence.

Way back in the Winnipeg Workers Strike in 1917 the police were found to be responsible for the violence. In relations with the Ongwehonwe, it is once again armed state forces, police or military that have caused violence and deaths time and time again. Remember the Mohawk Oka Crisis in Kanehsatake in 1990, Gustafsen Lake in B.C. in 1995, the killing of Dudley George at Ipperwash, and all of the recent confrontations at Six Nations and Tyendinaga! The violence on all occasions was started by the cops and their instigators.

We're not the only ones targeted for abuse. The 1970 Quebec nationalist movement that wanted to create an independent socialist state was almost completely taken over by the RCMP. A lot of the people in the movement were young idealistic students and professors. The police turned their movement into a violent crisis. British Trade Commissioner James Cross was kidnapped and Quebec Labor Minister Pierre Laporte was kidnapped and murdered.

Bombings were threatened. The FLQ was used to provide all the justification that war mongering individuals in the Canadian government needed to launch an All-out offensive. Pierre Trudeau, that sneaky "rat fink" who sold out integrity, instituted the War Measures Act authorizing extraordinary actions by the RCMP. Rule of law was suspended. The armed forces were deployed. Thousands of innocent youth and students were arrested and held without charges for weeks and months. The same kind of tactics are being used against Indigenous today.

Trudeau claimed this use of state force was necessary to protect Canada from the "scourge of terrorism". There was no terrorism except the terrorism from within that was planned and orchestrated by the RCMP.

The MacDonald Commission of Inquiry into Certain Acts of the RCMP revealed that the FLQ was completely infiltrated by police agents from the very beginning. The 1981 report found police agents were responsible for planning and carrying out terrorist activities within the FLQ. The RCMP used paid agents and other Canadian and Quebec groups to spy on and discredit the youth and student movement. It is very likely that they are doing the same again.

The students who support the Ongwehonwe and human rights, freedom of speech, decency and fair play, are all extremely vulnerable. The so-called forces of law and order have a long history of infiltrating student and popular movements in order to create violence that will enhance the power of the police and military forces.

During the October Crisis the Commission described 11 different types of dubious or outright illegal operations that were carried out by the RCMP. These included:

RCMP agents made secret allegations against tens of thousands of Canadians and shared them with police in other countries including the U.S., India, Pakistan, Israel, Lebanon, Iran, Britain and Ireland. They're still doing that. Remember Arar who was sent on an "extraordinary rendition" flight to be tortured.

RCMP stole membership lists from the Parti Quebecois and looked for people who could be recruited to be their agents.

RCMP burned barns in Quebec as part of training sessions for terrorist activities; they gave weapons, explosives and cash to members of the FLQ and trained them to use them. [www.modern-communism.ca](http://www.modern-communism.ca)

Did the public learn anything? The cops have become more secretive. That's when the Canadian Security Intelligence Service CSIS was formed. They have an "Indigenous sector" and they have classed Mohawks as terrorists and insurgents. This means that our rights have been taken away from us without trial or due process or even notice. Or maybe they have secretly declared war on us without the knowledge or consent of the Canadian people. We must always keep in mind how far these state funded "power freaks" will go to achieve

their nefarious ends.

## "Canada First Defence Strategy" under Mohawk Microscope

"CANADA FIRST DEFENCE STRATEGY" UNDER MOHAWK MICROSCOPE by Iako'ha'kowa and MNN Staff

MNN. July 16, 2008. Canada's military build-up is meant to try to attack "people of color" world wide, steal our resources and eliminate our population. There is a big recruitment campaign for Indigenous youth going on. They want 20% of the armed forces to be native. That way it will look like we approve their actions. No money to heal or educate or pay the debt to Indigenous people. But plenty of money to kill!

The U.S. inspired "Canada First Defence Strategy" (CFDS) is basically a capitalist economic plan. No thought has been given to sustainable development. The "Strategy" is an aggressive profit-driven scheme designed to benefit career soldiers and industry.

It was posted online on June 19 2008 with color photos of "Generalissimo" Stephen Harper and Peter "Fancies-himself-to-be-Idi Amin" MacKay. US military sites like "DefenseIndustryDaily" expresses skepticism about Canada's stability and its ability to follow through.

"A Military in Partnership with Canadian Industry". Harper says the military will be "Supported by predictable, long-term funding..." [i.e. tax and resource exploitation] so there will be unprecedented opportunities for international industry. It will be a bigger "cash cow" than World War II. They are trying to impress their foreign investors and the subsidized corporations who will build war hardware instead of what we really need, housing, schools, hospitals and environmental detoxification programs.

Pete lists the 3 roles of the military, "... at home... in the defence of North America, and to project leadership abroad", which means "attack anyone anywhere if they get in the way".

Their six core missions are: 1."Conduct daily domestic and continental operations, especially the Arctic? [are we under attack from endangered species like the polar bears and beluga whales?]; 2.Support the 2010 Olympics; 3.Respond to a major terrorist attack; 4.Support civilian authorities in Canada; 5.Lead international operations; and 6.respond to crises".

The "whole-of-government approach" is to meet domestic and international security requirements. This could mean totalitarianism.

Resources will be extracted without interference from the Indigenous owners. Since commodity manufacturing is saturated and the capitalists have created scarcity, plenty of money will be made in war materials and reconstruction by the military and industrial sectors using cheap labor.

CANADA IS BUDGETING \$490 BILLION ON DEFENSE FOR THE NEXT 20 YEARS. That's a rise of 2 percent starting in 2011, from approximately \$18 billion in 2008 to over \$30 billion in 2027.

The Government plans to "Increase the number of military personnel to 70,000 Regular Forces and 30,000 Reserve Forces". Programs like "Bold Eagle" are targeting Native youth, especially in the North to exploit the Indigenous knowledge of the land and destroy Indigenous sovereignty at the same time.

Canada is concerned about controlling sovereignty in the Indigenous owned Arctic. "Changing weather patterns are destroying the environment making sea traffic through the Northwest Passage accessible to shipping, tourism and resource exploration". They aren't too worried about the extinction of the polar bears or the displacement of the Indigenous people.

Their domestic security is based on "fear" of "foreign encroachments" on "Canada's" [Indigenous] natural resources.

"The Forces must assist other government departments in addressing such security concerns as over-fishing, organized crime, drug- and people-smuggling and environmental degradation." This sounds like militarized policing that is targeting ordinary people and particularly Indigenous.

The military will be at the 2010 Olympics where Indigenous are opposed to development which is raping and contaminating our land in British Columbia. Trenton near the Mohawk community of Tyendinaga is Canada's largest air force base where a NATO Forward Operating Base FOB is planned. Globemasters will be able to fly soldiers and equipment to war zones anywhere in the world.

Canada wants credibility with the U.S. Pentagon by working under them. Canada will go to war alongside "like minded" allies with or without UN approval, just like the US went to war on Iraq. Canada and the US have worked together since

1958 when they formed NORAD, not long after the St. Lawrence Seaway blasted away our riverside for the benefit of industries that polluted the environment. Wild animals are now registered as toxic waste. Since then they work together on "Canada Command" and the "US Northern Command".

"Contributing to International Peace and Security and "stability abroad" means free, unfettered access to other people's territory and resources.

The compliant media tell us that Canadian soldiers are building schools and hospitals in Afghanistan. In fact they are guarding the hundreds of mining developments like Aynak Copper Mine just a few kilometres from Kabul. This mine was bought by the Chinese Metallurgical Corporation MCC for more than \$3 billion U.S. Afghanistan has gold, iron, uranium, and copper, hydrocarbons like coal and the rare element, tantalum. Kahensatake has a huge deposit of niobium, often found with tantalum.

Where will the "increased, predictable" "New Long-Term Funding" come from? Presumably, it will be the loot from Afghanistan and elsewhere.

"Failed and failing states, civil wars and global terrorism" are being created so the military planners can describe the world as "volatile and unpredictable".

"Nuclear-capable adversarial states headed by unpredictable regimes are particularly worrisome" [especially the U.S.] "The pernicious influence of Islamist militants in key regions" is the scapegoat for their military buildup and to give Israelis an excuse to go into Iran.

"Full range of challenges" sounds like putting down possible Indigenous and grassroots resistance to their insanity. Taxpayers contribute 10% of their income tax to the military. The Canada Pension Plan CPP and Ontario Secondary School Teachers Pension are invested in the military industry through the Carlyle Group, which just bought Bell.

With this money the government is buying four C-17 Globemaster strategic lift aircraft, 17 new C-130J Hercules tactical lift aircraft, 16 CH-47F Chinook helicopters, three replenishment ships, 2,300 trucks, up to 100 Leopard 2 tanks and 6–8 Arctic/offshore patrol ships." The US has dozens of the Globemasters to carry all their war people and equipment to the war zone. They can be stuffed with piles of bombs. 12% or \$60 billion will buy other big toys like 65 new Fighter planes, search & rescue planes, UAV's, weapons, bombs, communications equipment, radar and satellites.

'Advantage Canada', will establish an elite military society based in the northern part of Turtle Island. \$250 billion will go to 100,000 personnel by 2028. They want highly skilled needy individuals like the laid off factory workers from the car plants and those coming in from induced famines. They want to fast track immigration too.

"National Defence is the largest property holder in the federal government which is all on unsundered Indigenous territory. 21,000 buildings over 50 years old and crumbling, 13,500 works including 5,500 kilometres of roads, jetties, training areas, etc. and 800 parcels of land covering 2.25 million hectares will be replaced or replenished over the next 10 to 20 years.

housing. \$140 billion for "readiness" training. That's \$7 billion per year! This does NOT include any costs for a new major war. That requires NEW spending.

The "Strategic Investment Plan" will coordinate all the military spending. Military industries like Boeing, Northrop Grumman and GM are lined up at DRDC for big research and development checks to spruce up Canada's "global excellence". [See CADSI web site].

The Canadian war makers are bringing corporate giants into the War Department to help them impose their plans. They will get big tax breaks and corporate welfare. Universities can grab funding too to work on military projects. Might is not right! Land and resource ownership is Indigenous and will always be. Canada is turning into a war economy when there's no war. Are they making one on Indigenous nations to continue stealing our possessions?
